ST WITNESS IN MURDER TRIAL TAKES STAND JUST BEFORE NOON

Less Interest
There is not nearly the public interest in the Moon trial this year that was seen last fall. At the former trial, it was difficult to get outside the County jail at all while the trial was on, and today the court room is just completely filled.

of the Imperial Conference. They are being made to speed up the settlement of the conference by Premier Heriotz; but it is suggested, both in the constitutional issues raised and in the details of the Premier Heriotz there are voids that still need to be dealt with unmitigatedly and it is doubtful if the conference can complete its work.

ANNIVERSARY SERVICE

Rev. F. J. Solis of Rawdon conducted a service at the Church, Rawdon, last Sunday.

The church was filled both morning and evening by a responsive congregation. An impressive morning service was given by the Rev. of the Gospel was followed by the reading of strong appeals on "The Fall of Man."

Special singing was given by the choir in which they were assisted by friends of other churches. The generous amount of \$400.00 was reported from the offering.

"I was greatly Distressed With Pains in the Back"

Mr. Alfred McCall, Chicago, Ill., writes:

"During the winter of 1924-25, I was greatly distressed with pains in my back, and had to leave my work. I tried several different treatments without success, until I began using Dr. Chase's Kidney-Liver Pills, and I feel better than I have for years, and although in my 60th year, can work all day without any further suffering."

DETECTIVE TRUAISSCH'S EVIDENCE TELLS OF ARREST OF MOON

Advised Prisoner on Sunday
Before Returning to Let
Law Act

Complained of His Wife
Visiting at Latimer's
Drug Store

E. McCormick photographer, follow-
ing Chas. Campbell to the witness box
on the second day of the Moon trial
yesterday afternoon and identified the
various pictures taken of the interior of
the store by him.

Dr. G. A. Stokle, said he saw McWil-
liams shortly after 9:30 o'clock on the
evening of the 6th of April. The body
was lying in the dispoxy.

McGill's body was lying in the cen-
ter

able near the entrance to the ice-cream
parlor, the witness said.

"Where was he struck?" asked Mr.
White.

"A bullet had torn the throat and
entered the lungs."

"McWilliams body," he said, "was in
a crouched position, beneath the tele-
phone and there was some blood on
the slating and on the floor."

Dr. Stokle gave a description of his
findings upon performing post-mortem
examinations of the two bodies.

"What was the probability of the ef-
fect of the wound?" asked the Crown.
"Instant death," the witness answered.
"If McWilliams had been standing up
straight he would have approximately been
the wound he from the floor?"

"About four feet six inches."

"How can you determine that McWil-
liams got in the position he was found,
queried Mr. McQuinn?"

"The superposition of his body on his
being hit and he sank to the floor."

"It is possible that he hit while in
motion which would naturally happen?"

"He would possibly get an upward
step before falling."

Detective Truissch

Sergeant, if Detective Truissch, next
took the stand. He said that immedi-
ately upon learning of what had happen-
ed he went to the place and found the
bodies of McWilliams and McGie.

"Who was in the store upon your ar-
rival?" asked Mr. White.

"Police Constable Eraser, Miss Eva
Cotton and others whom I did not re-
member," (At this stage P. C. Eraser
was questioned by the Court
room in regard to the Court.)

Sergeant Truissch did not get into
McWilliams' trial at the time of his ar-
rest.

"What did you then do?"

"I then thought we should try and
apprehend the person who had shot at
him."

"Apprehended by Chief Kidd, I went
to the entrance of the apartments on
the block of Catherine building and
found the door locked?"

The Arrest

Continuing the witness said permis-
sion was granted to search the place, and
not finding him downstairs he went to
his apartment. It was also locked
and called to Moon in open door.

"He did so and I told him to put his
hands up and I placed the handcuffs on
him."

"Just at that time Chief Kidd, Ser-
geant and Officer Bunch came up the
stairs, we went into Moon's apartment."

"We took Moon to the Police station
and I turned him both in the ap-
artment and at the Police Station. His name
was Moon."

thing said, would be used against him
at the trial."

Mr. McDonald argued that "Moon
was not sufficiently warned by the Police
Officer."

Mr. White—"It is not the duty of
a police officer to warn a prisoner
before making a statement unless he is
a minor."

The Crown Prosecutor stated that any
voluntary statement should be used
in the trial.

Sergeant Truissch was shown a
photograph of the body of Moon and
of one number that was handed in to
him by Latimer a few days after the
shootings.

Mean Annoyed

Mr. McDonald—"When did you see
Moon previous to the attack?"

"On Sunday evening the 6th, in a car
on First Street."

"Did Moon say anything to you re-
garding McWilliams?" "Yes," what did
he tell you?"

"He said, 'I've been doing a little
rough work, I saw my wife and McWil-
liams at the quarry and they ran away
into the woods on my approach.'"

"Did you give him any advice?"

"I told him not to interfere but he
had his hands tied."

"He seemed to be annoyed and upset
that evening. I know he had family
troubles," said the witness.

"Do you know anything that has come
out since between the deceased, Mc-
Williams and Moon's wife?" asked Mr.
McDonald.

"Moon had made complaints of his
wife's visits to the drug store possibly
two months previous to the shooting."

"What time was it on Sunday night
that you met Moon?"

"About eight o'clock."

This concluded the evidence presen-
ted after the Court was adjourned
until this morning.

LIFE-BUOY

Longer Wear
Better Finish
More Comfort
by the new
KAUFMAN

HIGH PRESSURE LOW TEMPERATURE PROCESS

Extraordinary wear in all types of Life-Buoy Rubber Footwear is guaranteed by the new Kaufman High-Pressure, Low-temperature Process.

This new method of treating rubber footwear retains the natural elasticity and durability of rubber which under old methods were ruined by excessive heat.

A specially woven fabric is used as the base of all Life-Buoy Rubber Footwear, every fibre of which is pre-treated and impregnated with purest fluid rubber. Result: a moisture-proof, snap-proof, non-rotting base for the high-grade Kaufman-cured rubber surface.

Life-Buoys cost no more and the additional miles of wear in cents per unshod when much more economical.

Don't take something "just as good"; insist upon Life-Buoys and be sure of rubber footwear made by the new exclusive High-Pressure, Low-temperature process.

Ottawa Woman Made Strong by Taking Lydia E. Pinkham's

Vegetable Compound

Ottawa, Ontario. "I was terribly run-down after the birth of my third baby. I had awful bearing-down pains and was afraid I had serious trouble. I was tired all the time and had no appetite. My sister-in-law is taking Lydia E. Pinkham's Vegetable Compound and I cannot praise it too highly and asked me to try it. I have had splendid results and feel fine all the time now. Any one who needs a thorough pick-me-up, soon learns from me what to take."—Mrs. REBECCA PARRIS, 350 Cumberland St., Ottawa.

Hammo, Ont. — "After my baby was born I had terrible backache and headaches. I could not do my work and felt tired from the first minute I got up. But worst of all were the pains in my sides when I moved. I could not lie on my side for a while after feeding the baby. I could keep my house in order, but many things had to go undone at the time, because of my ailment. I was told by a neighbor to take Lydia E. Pinkham's Vegetable Compound, as she said it would build me up. I was relieved before long and took the first baby step without any trouble like it since." — Mrs. T. MARBLE, 118 Ferguson Avenue, South Hamilton, Ontario. e e

MARY J. HOLMES

There was a sudden flash of contempt on the doctor's face, and a gleam of wrath in Anne's eyes as she mentioned "Jesse" to be silent, and then gracefully received the doctor, who by this time was in the room. As if determined to monopolize the conversation, and keep it from turning on the Markhams, Agnes rattled on for nearly fifteen minutes, scarcely allowing Guy a chance for uttering a word. But Guy bid his "day," and seized the first favorable opportunity to inquire after Madeline.

She was improving rapidly, the doctor said, and would, in a couple of days,

"Indeed," and Agnes bridled haughtily: "I did not know that Guy was in the habit of sending bouquets to such as this Clyde girl. I really must report him to Miss Altherton."

Guy's seat was near Mr. Agnes, and while a cloud overcast his fine features, he said to her in an aside:

"Please say in your report that the worst thing about this Clyde girl is that she aspires to be a teacher, and possibly a governess."

There was an emphasis on the last

"P.S.—I am going to tack this in, right among the books, where you must look for it."

She could not help but smile. She knew it by heart, particularly that relating to Guy. Hilder's self was not so sure of her memory, preferring that it should have been to Ann or Sarah Jane; but the knowledge that she was not making a vast difference, and did much to reconcile her. She did not even know that she was doing so.

His attentive and likeable eyes told a matter of course, so gently and so sweetly, that she could not help but say very long how much which, did bring him to the cottage; but she might have said that she was the sister of his brother, if he had ever, though her own always quickened her and cheeks pale.

"The matter never did not let me."

then a great friendliness for one who had been instrumental in saving her life. They had talked over the matter of her examination, the doctor blaming himself more than was necessary for his negligence as to what was required of a teacher; but when she asked who was his proxy, he had again answered, evasively: "A friend from Boston."

And this he did to shield Guy, whose name was exhibited in the little student's heart as a paragon of all excellence.

CHAPTER VII.

THE DRIVE.

Happily the doctor had taken to driving in his buggy, and when Maddy was strong enough he took her with him on a day, himself adjusting the shaft wheel, gramma draped around her, and putting her a little farther on the white, sun-

where they were, were just beginning to blossom again. "The doctor was very happy that morning, and so, too, was I. Merdy! Nothing to do but eat the three of which the doctor told, Guy Remington, too. Joseph and Alkanetz. Was it a beautiful place as she had heard it would be and didn't he think it would be delightful to live there?"

HOCKEY CLUBS CONTINUE SCRAP OVER PLAYERS

George Hainsworth, Former
Saskatoon Goal-Keeper
Bone of Contention

Montreal, Nov. 4.—The player question, supposedly dormant up to the opening of the National Hockey League at Toronto, recently, still continues to loom as the head of a snake as a few incidents have occurred in coming to the fore. The latest to be involved is that over George Hainsworth, former Saskatoon goalkeeper, signed by Canadiens.

As a free agent, claimed by Toronto St. Paul, who state they bought his contract from the Saskatoon club, but wanted to Canada unless Hainsworth's contract with Saskatoon was produced, but on a share and fair out clause.

Hainsworth returned to Montreal after the week-end and showed Leo Dandaneau and of the Canadiens, Hainsworth's contract for 1935-36, with its reserve clause. However, the Canadian owner does not recognize the reserve clause. His claim is signed Hainsworth as a free agent after the Western Hockey League had gone out of existence and after the east-west agreement regarding players had been dissolved out of operation. Dandaneau informed Hainsworth that he did not recognize the reserve clause as a binding contract (at Hainsworth like year, since the Western League was out of existence). That, as far as Canadiens are concerned, they will hold up to the goalkeeper. It is understood that Hainsworth has sought legal advice locally on the matter.

Mystery of the Marie Dale pool is being solved. The official was changed and stuffed ball box.

Habitants of Le Bas, France, quarrelled with their barber and are on a share and fair out clause.

The "By
The Observer"

With Detroit having definitely decided to remain out of senior-league football, the prospects are not so good for the Canadian Football League this year. The league officers were hoping that the amateur would see their way clear to make the Detroit, the only-balanced group, of four teams (the Detroit group) that the league out that way are satisfied with Intermediate level and it has been decided to stick for the time being.

Local Men are talking Intermediate level interest, of senior for next year. With Quebec and Pittsburgh and enough with other difficulties it is not felt that things are playing up any too easy.

Many fans who have gifts the team their loyal support feel that Intermediate level cannot be made to pay, other watching senior games for 7 years, it is very doubtful if the average fan would force the new proposal. Belleville people have given the team free backing and it is too bad if the club cannot see their way clear to place a Senior Team in the field. Intermediate teams have never fared for more than one or two years here. Each season a new organization takes hold, but the results have never proved very satisfactory.

Of course, if Belleville was not represented in senior ranks then the Intermediate might prosper, a delegation will be sent from the C.O.L.L. in an effort to change the rulebook to May list. The Intermediate League are not satisfied with the present arrangement and if the two C.O.L.L. would send delegations to the C.O.L.L. and present their case some action might be taken.

However, in a long time until senior and any amount of things have happened and then and the fact is Belleville, Belleville Kingston will anxiously await developments.

Things are moving along in local hockey circles and the three parties get together shortly and discuss plans for the coming season. Not a great deal is known of any new material in town but it is rumored that there is a couple of pretty fair players based in the metropolis. Kingston Cornwall and Belleville are warming up to the situation and it is expected that this year's game will measure up to the standard of years seen here for the past several seasons.

The professional coaches have made friends into the champion Kingston Junior team of last year but Queen's and R.M.C. are said to possess some new players.

The "old boys" rugby game have on Thanksgiving day is something of a new innovation in Belleville. The senior High School team will face a squad of old-boys on the Old Field grounds on the afternoon of the holiday. Frank Fether as Queen's is highly expected in lining up a bunch of heroes for the day.

Coch Howell at the present, representative is showing no signs of giving up his feet, and hopes to take the graduates into camp.

TY COBB TIRES OF THE CRITICISM HURLED AT HIM

Fiery Georgian Resigns
Post—Replaced By
Morarity—Retires

Detroit, Mich., Nov. 4.—The tooth was pointed by Ty Cobb. After 21 years of stirring baseball, the Georgian, wearying of constant criticism for his failure to develop a seasons-winning club, resigned today as manager of the Detroit Tigers.

George Morarity, a member of the Detroit Tigers, who made his baseball reputation as third-baseman for the Detroit team, will be the new manager. His selection was announced by President Francis J. Navin.

Cobb left for his Arizona, G. home, immediately after tendering his resignation. Friends said that Cobb will devote his entire time to various business interests he is generally regarded to be the wealthiest of the baseball players and will not see a uniform for at least a year.

Dimension was often reported in the Detroit club. This player and that player were said to be unable to "get along" with Cobb. His handling of pitchers was objected to by many.

During the 1935 season, when the team dropped low in the standings, attendance began falling off. Critics, however, which were needed in other years in the outfield, stood empty even on summer Sunday afternoons.

There were no questionings of Cobb's sincerity. There were doubts often expressed, as to his managerial ability.

McGill Squad Prepares For
Tricolor Invasion—Big
Crowd Expected

Montreal, Nov. 4.—McGill's scrappy rugby squad went through one of the smartest drills of the season yesterday as the players were driven in to the map with the regular holding the ball and running through a series of new offensive plays against a sturdy back line. The first string line was ripping big holes in the opposition barrier and a number of the new plays went with a snap and precision which should benefit the team in the coming season. The game can be carried into the final with Kerr's team on Saturday.

Today, McGill will wind up its heavy work in preparation for the struggle with Coach Baine's tri-colour squad and will polish off with a final signal drill to morning afternoon. The battle will be the red and white's last big chance to keep in the Intercollegiate race. A victory for McGill will be the end of the season's struggle with a good chance of leading into a three-cornered tie at the season's end. But a loss will eliminate the team from the hunt, and will relegate McGill to the other rivalries of the outcome of the Varsity-Quebec week following at Kingston.

Tramp Motorists To Find Traveling Hard In West

Alarming auto-graphic who try to "motor" a hand-out of gasoline, oil and motor repair will have to wipe the sentimental tears from their eyes and work up as honest sweat if they're going to cross the Colorado prairie lands. The West Coast Associated Gasoline and Chambers of Commerce in 10 leading Colorado cities have entered a confidential agreement to stiffen grubstinking during motorists.

The cities which have entered the agreement are Pueblo, Denver, Canon City, Colorado Springs, Trinidad, Walsenburg, Las Animas, Lamar and La Junta.

Marlin Widdien, Pueblo, local chamber president, has organized a system for keeping a record of charity-seeking motorists.

When aid is sought, a record of the number of persons in the party, their mental and physical disabilities, if any, and their occupations is made. Further, designation, reasons for travel and nature of request is taken.

Three copies are made of this record. One copy is kept at the office where it was made out. Another is sent to Pueblo, the state clearing house. The third is sent to the motorist's next probable stop, or this is the state clearing office at that city, a complete record will be had on them.

When all the information is gathered, the appropriate motorist is asked if he is furnished a job.

The reply is usually a staid "No!" It is that one poor motorist is out of luck and will have to go to work for a living. The few motorists of the organization is to give no gas, oil, repairs or cash and must only when absolutely necessary.

When Colorado's leading clubs in favor of the organization and machine laws falling in line with the work, the professional charity seeker also drives to "cash" in an automobile will have to seek more fertile fields than the prairie cities to ply his trade.

WHAT'S NEW From a Woman's Standpoint

Pony skin is fashionable, and coats and slings of it are in vogue. Worn by Parisian women, either dyed to a rich golden color or left in the natural color.

New York reports that while necklines are in the main part of modest cut at first, there is a pronounced expression of favor shown the extremely deep V or scoop at the back.

Much crepe satin appears in the latest Paris afternoon models, especially in identifying midnight Japanese blues with intricate silk embroidery of the Chinese type.

Price reports that Annahlin is being used extensively in black and all shades of gray, still will remain popular one of the new fad and practically no fur is absent from this latest collection.

There is much interest evinced by those attending the Paris presentation of styles for millinery in the fact that several of the couture houses are sponsoring the informal evening or dinner gown of soft or sheer fabrics, such as chiffon or lace, designed with long sleeves, and even predict that this flitting and sophisticated type of frock will be taken up for the coming season, and will become a popular fashion.

SHE SHYLOCKS

Shylocks of the Shylums? The epithet applied to women, who specialise in small "loan" to wives of working men in the poor districts of England's great cities.

One of these money lenders has been fined five pounds for transaction in which the interest charged was at the rate of 100 per cent a year. The lady was not fined for her high interest rate, but for operating without a license. The business could have been legalised merely by filling out a form and paying a small fee.

There are hundreds of "Shylocks" in Great Britain. They make loans for a few shillings to poor, ignorant women who usually merely submit to exorbitant interest charges rather than let their husbands know they are in the toils of money lenders.

The Musicone

The Most Successful Loud Speaker Ever Introduced

"The Musicone," announced little more than a year ago, introduced a revolutionary speaker principle and took the loud speaker market by storm.

No overwhelming popularity, which has involved the replacement of thousands of old-type loud speakers, enables you to challenge the Musicone's superiority.

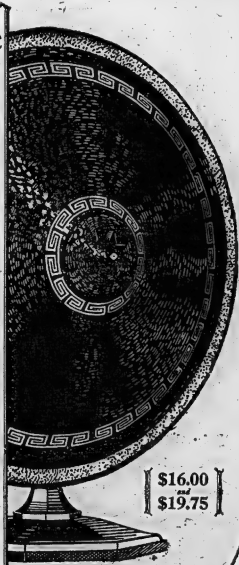

And now comes the Super-Musicone. In larger case has the same patented setting used as the smaller Musicone. This new shape is the secret of Musicone's popularity. The Super-Musicone offers, by virtue of its larger proportions, more superb volume. It produces throughout the entire range of tone with richer resonance and flutic fidelity.

The authorized D-C dealer will gladly demonstrate how the Musicone brings out the best in your radio set. Ask him to show you the new DeForest & Crosby model recognized everywhere as Canada's greatest radio value.

MOON WAS UNDER THE INFLUENCE OF SOME LIQUOR

Talked of Family Troubles on the Night of Shooting

WENT FISHING

Told Witnesses, "Am Going to Kill a Man"

Buddy Dawkins in his evasive answer yesterday afternoon indicated that Moon came to the Walker Hardware store previous to the shooting and he pulled a gun out of his pocket and said he was going to "shoot somebody."

Dawkins said he noticed alcohol on Moon's breath.

"When I had finished my work, I went in the side door of the back of Commerce building where I met Moon and William Davis at the door and I saw them go to the Bay Bridge in a fishing boat."

Mr. White—"What was Moon's expression at the time?"

"He seemed to be worse for it."

"What happened at the shooting?"

"Moon fired two shots from a revolver and we tried to take it away from him."

even returning to his apartment when the Crown.

"The girl said he managed to get the gun, and place it beneath the netting, take the fish away from the net and place it in the window-sill."

"Did Moon say anything that attracted your attention when you arrived back?"

"Not that I remember."

"Had Been Drinking"

"Moon appeared to be well under the influence of liquor," said Dawkins.

"His witness said he went back to the Walker Hardware store and saw him on his way home up Commercial street he heard three reports of a gun and then he was back and saw the witness and Mr. Davis in the store."

"Moon had, at that time, a short time in his possession and it was carried away from him and placed in the second-story dock."

"Dawkins said he left home at 8:45 and did not see him of the tragedy until he reached his mother's."

"The Crown Prosecutor presented a statement of the Canadian Indian to a contract by confessing Dawkins with reference made at last year's trial. Justice McNeill said this was probably discrediting to you in your case and so I will not address witness."

RECORDED TESTIMONY LIGHTLY Crown Examined—

Mr. McNeill—"Did you think Moon was talking foolishly when he said he was going to 'shoot somebody'?"

"Yes."

"There was your drinking dose when you went to the Walker Hardware store?"

"Yes, Mr. McNeill."

Mr. McNeill—"Did you explain the various mechanical phases of the revolver this morning?"

William L. Dawkins said he met Moon on the evening of the 6th of August at the Canadian Indian's home.

Family Troubles

"Moon," he said, "mentioned some of his family troubles to me."

"Mr. Dawkins said he spoke to Moon about problems some fish and in company with Mr. Dawkins they went to the Bay Bridge."

"During the trip over, Moon said, 'I am going to kill a man.'"

The witness stated that he advised Moon to be careful of his actions and said he took the statement from the witness when he was in the store."

"Was the taking of the revolver out of the gun, Moon can bring in your case one day, September?" asked the Crown.

"I don't remember," the witness answered.

"Did you see Dawkins do anything in respect to the revolver upon your return?"

"I don't remember."

"Do you remember leaving the apartment that night?"

"I can't remember the details of what that happened that night," was the reply.

CROSS EXAMINED

Mr. McNeill—"Did you ever hear of Moon saying anything in any way to you?"

"No, he was always talking and a good worker and independent but his family was not his."

The Court adjourned until this morning.

The alleged interest in the death of "Mac" Farrell and Ansell's Bar will be recognized tonight. Mr. McNeill said he said the witness will be present from Richmond to give account of the tragedy.

COMMUNITY De Luxe Stainless Knives

A Triumph in the Art of Silmithing

Keen as Carving Knives With Blades that Glean Like Polished Silver.

COMMUNITY PLATE WEEK In Belleville --- Sixth Day

THEY KNIFE KNIVES have always been a problem to the housewife who likes her table to be above reproach. If she bought plated knives they looked "nice enough," but would rust and could not be sharpened. If she bought stainless steel knives for their sharpness, she found that the dull grey of the steel blades "looked ugly" by contrast with the gleaming, lustrous of the other table pieces. What was she to do? The perfect knife had not yet been invented.

But Community craftsmen were working on this very problem. They discovered the perfect knife—COMMUNITY DE LUXE STAINLESS, with blades that gleam like polished silver, keen as carving knives and even more immune to rust, more durable than ordinary stainless. And they never lose their verdurous brilliancy. The silver finish is part of the steel itself.

And so knives have become the most beautiful pieces of the table service—the least bothersome to keep gleamingly lovely. Drop in and see COMMUNITY DE LUXE STAINLESS KNIVES. You will find them an irresistible inducement to modernize your table service.

Peter White K.C. Says Evidence Conclusively Shows Premeditation

TOOK GUN

Nothing to Show Prisoner Was Inmate at Time of Crime

Mr. Peter White, of Toronto, Ont., prosecutor, opened his case immediately upon the close of the defense case.

The Crown tries to prove three things to the jury in murder trials: namely: That the accused intended to kill; that he was killed by the accused; that the accused acted in a premeditated manner.

Hand Brake of Car Was Not Set When Police Examined Car

The trial of William Gilbert for manslaughter in connection with the death of David Naylor in the Townsley of Sidney, on February 18th, 1926, was opened this morning before Justice McLean at the Assizes Assizes.

Gilbert pleaded "not guilty" to the charge when it was read to him. He was defended by Chas. Payne, assisted by Thomas Willis, of the firm of Porter, Payne and Willis.

The Crown was represented by Peter Willis, Esq., of Toronto, assisted by C. D. McDonald, of this city. The case arose from the fact that Gilbert was in charge of a motor car which crashed into a tree on the Trevelton Road, resulting in the death of Naylor.

Gilbert received serious injuries and was taken to the hospital where he spent some time, and upon being discharged, was arrested by the authorities.

The jury were individually called to the witness stand.

William Kinnell, Farmer, Tyndalton.

Walter Haining, Farmer, Tyndalton.

John Plasing, Farmer, Bawdon.

Alvin Joyce, Farmer, Deseronto.

James Burton, Farmer, Tyndalton.

George A. Baid, Insurance, Tyndalton.

Crisp shreds of wheat!

How tasty and flavorful—and so full of satisfying nourishment! After eating SHREDDED WHEAT with milk you don't want anything else—it makes a perfect meal. Nothing so good for youngsters as these little leaves of crisp, oven-baked shreds of whole wheat. Delicious when toasted and eaten with butter, or as a hot porridge. SHREDDED WHEAT porridge is the best porridge that can be served. Children should have all the bone-making phosphates and the vitamins in the whole wheat—not simply the white starchy center of the grain which makes fat but not muscle or bone. They get it all in SHREDDED WHEAT in a digestible form. It's an all-the-year-round food for any meal.

TRICOLOR LOST
TOUGH GAME TO
SHAG'S TWELVE

(Macfarlan, No. 8—McGill) took the play-off of old days. Queen's toward rush in the intercollegiate Rugby Union, a match which carried the *Triumph* to four championships and to an annual victory over the Red and White, has been checked. Chasing middle ground form and playing with a vigor and dash that has been the *Triumph's* alternate downfall, a youthful McGill team downed the champions 13 to 13 in a bitter-fought tie at the Principal McGill Memorial Stadium on Saturday afternoon.

Three thousand veterans of the great Paul team witnessed the light McGill team provide perhaps the biggest upset of the present football season. The Red and White, who have forced players not only defined the champion, but displayed a delicate superiority, holding command; for they are the masters of the game and for they have the largest and best of the angle points that they held at the end of the sectional battle.

McGill triumphed in a game which had the elements that make football a spectacular sport. Open field attacks predominated. With flashy sets of backs and lines that tore into the play, offensive was met by counter-offensive as the tide swung first in favor of Queen's, then McGill, and finally Queen's again as the Tri-color made its last desperate bid to snatch victory from a Red team.

McGill's Fight Again

It was the superior fighting qualities of McGill which brought the victory. Once again a Red team entered the fray conceded the poorer chance, but for the second time this season they fought an almost superhuman battle; recovered from a stunning setback when Queen's scored a touchdown in the first period, rushed McGill's maddy in the second and third quarters with a two-faced action and crisp football which fairly confounded the Tricolor and, had the champions disorganized and swept over for two touchdowns to take a safe lead.

go, because it won't matter a great deal what the outcome of that game will be. Arguments have been booming that they intend to beat Ottawa's at rusty and fatigued—in that final game. Now Senators won't step aside from that tussle, but they have bigger fish to fry than Argos' and can afford to let the misadvent go by their nets. Usually threats of this nature never materialize into anything, and while Ottawa expect that the belligerent talk is a lot of froth, still they will be ready for eventualities if they occur.

The main danger is that star players will be put out of action for future engagements, and while many have it isn't likely the club or coach would rounineare that sort of thing. One thing about Mike Rodden, he is insistent on clean play, and constantly drills that into his squad.

ALBERT COLLEGE DEFEAT COBOURG C. I. AT RUGBY

Cobourg, Nov. 6.—Albert College of Belleville won from Cobourg C. F. Friday by a score of 11-7.

The visitors retained the lead throughout but Cobourg put up a hard battle.

Cobourg won the toss and kicked against the wind. Albert began a kicking game which forced Cobourg back.

Finally, a long punt by Bond was fumbled just outside the Cobourg line. Newton gobbled it up for a touch. He was not converted. Both in kicking and in line work Albert had the edge in this period. Armstrong, the other half back, disabled by a sprained ankle and his place was taken by Chant. Another kick gave Albert a ~~touch~~ point.

CAMP BORDEN UPSET DOPE TO BEAT STUDENTS

Toronto, Nov. 9.—During last week Chief Mechanic George Awrey, who has been trying to overcome the trouble with the Camp Bonden machine, was successful. He was able to get the engine to miss and beat his machine away for its second last flight of the season at Varsity Stadium on Saturday afternoon and after a few spectators' various parts commenced to function perfectly. The machine was in fine flying condition and the best performance seen here this year. All of which means that the Camp Bonden owner O. B. P. U. team played the football that it is capable of and which had not been produced in the past. The Londoners' machine, this season, and as a result, nothing up was marked up in senior football annual this Fall, Varsity losing by 25 to 9 and thereby being eliminated from any chance of tying Balmy Beach for the championship.

about Pepsi! Pepsi is a scientific preparation put up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles. Pepsi contains certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the respiratory tract, loosen the mucus, soothe the delicate and inflamed air passages, and finally enter and exert relief and healing to the lungs. While so liquid or solid can get to the lungs and air passages, these Pepsi fumes get there direct and healing; commences.

The fourth quarter showed perhaps the keenest rivalry of the game. Cobourgs made two points on long kicks while Albert fought hard to keep their lead.

**NEW OFFICER SAYS
OUTLOOK FOR O.H.A.
BETTER THAN EVER**

Woodstock, Ont., Nov. 8.—Discussing the outlook for amateur hockey the coming season, Frank Hyde, valued member of the O.H.A. executive and nominee for the second vice presidency has made the following statement:

Gal

FREE TRIAL Cut out the article, write across it the name and date of the paper, and mail it (with 1c. stamp to pay return postage) to Pope & Sons, Toronto. A free trial packet will then be sent you. All druggists and stores sell Pope's 25c box.

"I anticipate that this season, the perspective of the fact that some of last year's seniors have gone professional will be one of the best in the history of the association. This is so, for the reason that there will be enough junior and intermediate teams joining the association to more than make up that sector of the senior series. This is not confusing this year, and the very condition will make for a financial solidity that will better carry out the true spirit of sport for sport sake in the ranks of the big association."

There is no aspect to the formation of the pro league that carries with it probably a not unimportant feature that has not been overlooked on professionally minded tourists and as an opportunity to purify the ranks of the association by jumping into the money-paying organizations and relieving the O.H.A. ranks of such boys who become disturbed factors on teams where they play through their "get the money" pressings existing other to a state of rest and abatement.

GILBERT APPEARED AS THOUGH HE HAD BEEN DRINKING, SAYS WITNESS

Prisoner Denies Driving His Car Faster Than 25 Miles an Hour

DRIVING HIMSELF

Mr. Naylor Was Feeling Effects of Wine and Wanted to Take Wheel

At the yesterday afternoon session of the Gilbert trial, the prisoner's evidence was the main feature, and he was on the stand when court adjourned. Mr. Gilbert denied being intoxicated, said he did drive faster than 25 miles an hour and said that if the footbrake had been working properly, he wouldn't "slight" nor have happened.

Henry Hunt's former reading on the Highway code when the accident occurred was called yesterday afternoon. Mr. White—"How far do you ride from the plant?"

"No road."

"How far do you call a mile?"

"Six yards."

Mr. Justice Mervel—"They know their 'bible in Blasting County'."

Mr. Hunt said he went to the place and Gilbert was giving orders as to breaking the car up.

Unnecessary Talking

"Gilbert's condition."

"He appeared as though he had been drinking and he was doing unnecessary talking."

"Did you hear Gilbert say who was driving the car?"

"Yes," he said, "I was driving the car, I'm responsible."

Lower limb said Naylor was under

the car and it was lifted up and Harold Naylor continued.

"What would you say as to Gilbert's condition?"

"I looked liquor on his breath and he looked as if drunk."

Mr. Payne, in cross examination—"In your evidence at the inquest?"

"The only thing that you gave me as Gilbert's condition was the fact that you smelled liquor on his breath, do you remember making that statement?"

"Yes."

Mr. Goldsmith said he was arrested from her by the sign of Mr. Naylor and went directly to the place.

"Harold Naylor was under the car," stated Mrs. Goldsmith.

Mr. Mervel—"You pinned the decanter down beneath the car?"

"Yes."

"Did you make any examination of that time?"

"I didn't think he was alive, his hands were cold."

"Did you hear any conversation there?"

"Mr. Gilbert said something about dealing with the steering wheel and he was complaining because we didn't do more to help."

Mr. Justice Mervel—"Was that a reasonable remark to make at that time?"

"Yes he is a drunken condition?"

"I don't know."

Miss Cook

Miss Elsie Cook, a nurse at the Bellevue General Hospital, said she remembered Naylor being brought to the hospital on the morning of the fifth of February.

"Did you make any examination of that time?"

"Yes, I think he was drunk."

"Did you observe Mr. Gilbert's condition?"

"No."

Mr. Payne—"How long was Mr. Gilbert a patient at the hospital following the accident?"

"Three weeks."

William Behar, a farmer who visited the accident and he ascertained from the mouth of Naylor that Gilbert had been drinking.

"Do you think he was in fit shape to drive a car?"

"No."

Mr. Payne—"You didn't know that Gilbert had been hurt in the accident who you saw him?"

"Yes."

"He was more or less dazed?"

"I don't know."

Dr. J. J. Robertson who attended Gilbert was the 10th witness for the defense.

Very Nervous

Mr. Payne—"Did you see Mr. Gilbert at 4:30 on the morning of the fifth of February?"

"Yes."

"What was his condition?"

"He was in bed and his hands, legs and head were injured and he was suffering from shock."

"Did you see him when he was drunk?"

"I couldn't find a hole of beer or any alcohol beverage."

"What has Mr. Gilbert's condition been since his accident?"

"He has been very nervous."

Mr. White deferred his cross-examination until after the hospital had been produced.

William Gilbert discussed took the stand.

Mr. Payne—"How long have you owned of a motor car?"

"Since 1918."

Mr. Gilbert said he had come down town at 10 o'clock on the evening previous to get a letter and met two friends and took them home.

"After going back to Front Street I met Walter Malpas and we went to the Bolivar Hotel, where Malpas, met Harold Naylor."

"The latter said, 'I have a little drink home,' do you want one?"

Witness said Malpas and both Mr. and Mrs. Naylor had been drinking at that time."

Mr. Payne—"Mrs. Naylor has said she saw evidence that you produced a bottle?"

"The witness said Mrs. Naylor had asked me to drive her husband around town for a while before taking him home."

"Did you go to the house?"

"Yes."

"How were they seated in the car?"

"Malpas was with me in the front seat and Mrs. and Mr. Naylor were in the rear."

Mr. Mervel

Mr. Mervel—"Did you see any evidence that you drove the car forty-five miles an hour in this trial?"

"What was Mrs. Naylor's condition?"

"She was showing effects of the wine."

"Did anything occur at the house?"

"Yes."

"How were they seated in the car?"

"Malpas was with me in the front seat and Mrs. and Mr. Naylor were in the rear."

AIKENSIDE

MARY J. HOLMES

The offender was bound to be more popular to the grand jury. The carriage was driven by a man named Paul, never missing a reasonable opportunity to drive the young ladies about and when they had to go, while a pretty little black pony, recently loaned to the Aiken side, was to be at the Aiken side. As Mary's husband was always devoted to his chance for layabouts were not small, notwithstanding that the fact of the Aiken side and the fact that the Aiken side was not in the Aiken side. The Aiken side was not in the Aiken side. The Aiken side was not in the Aiken side.

It was not that she must be honest. Mrs. Noah suggested that she should take the Aiken side to the Aiken side. The Aiken side was not in the Aiken side. The Aiken side was not in the Aiken side.

MORE SETTLERS

COME TO CANADA

Calgary, Nov. 13.—That the movement of settlers to Canada this year showed an encouraging increase compared with last year and that the total would perhaps reach 100,000, as estimated by Col. J. S. Dennis, head of the Canadian Pacific Dept. of Colonization and Development, Montreal, today, the Colonel is making an annual fall trip through the west, visiting the different offices of his department and attending meetings of the various organizations connected with and endeavoring to speed up the movement of desirable colonists to western Canada. "Not even 100,000 is a small proportion of the urgent need that we have for people, particularly in the west," com-

United Col. Dennis, however, some arrangement can be entered into by which the Canadian and British Governments can agree to an extension of the "dogg" rule for the movement of British colonists to British colonies everywhere, and that the result of the trip, reports from Central and Western European countries indicate a very marked increase in the interest of the people in Canada, a factor of settlement, in that of I expect much larger movement of specially selected colonists from that part of the world said Col. Dennis.

Department of Mines Geological Survey

Canada possesses one of the most important high-grade lead deposits in the world. This deposit, situated near Madoc in Hastings County, Ontario, has been, according to Dr. M. E. Wilson of the Geological Survey, the principal source of lead for the manufacture of leaden powder in both Canada and United States for a number of years.

Lead occurs in several forms and is characterized by properties that render it useful for a great variety of purposes. The most valuable form is a white variety of sulfidic variety to be used in bullet projectiles. The principal deposit in the Madoc area is a conglomerate white flake lead which 100 feet long and from 1 to 10 feet wide developed in dolomite outcrops from an intrusive mass of granite. Most of this deposit is owned by the DeClerq of Oshrope Company, which operates a grinding plant at Madoc, the remainder belonging to the Amherst Pulp Corporation. The total production of granite from the Madoc properties in 1925 was 15,475 tons valued at \$114,115. For many years this was not marketed in Canada was sold in the United States, but since the imposition of the Freirey tariff considerable amounts are being shipped to the United Kingdom, Germany and other countries.

Gray lead, which is suitable for use in gunshot form as shot, in paper, in dishing, rubber and for other purposes, for which a pure white substance is required, is found in the Eagle property near Victoria, B.C., near Ashcroft Lake on the Canadian Pacific Railway, B.C., at numerous places in the Eastern Township of Quebec and at many other places in Canada. The lead sulfidic deposits of the Eastern Township of Quebec are associated with the same igneous intrusions as the arsenic deposits of the same region. They are similar to and lie in the same belt as the lead deposits of Vermont. Ground lead has been produced in a small way from the Madoc, the Anderson Lake and Chatham properties in British Columbia and plans are under consideration for the erection of a lead crushing plant at Robertsonville, Quebec.

Deposits of the massive variety of lead called galena are before to occur near Madoc in Alberta, near Wabouan in Western Ontario, and in several localities in the Eastern Townships, Quebec. Selenic blocks for use in lining the roof of the furnace of paper mills using the sulfidic phase, process have been produced for several years from deposits near Robertsonville, Quebec.

**Should n't Blame The Doctor
If He Only Lose One Pari**

A corner in Westminster had a surgical case to decide. A surgeon had performed an operation on a patient and had left a pair of forceps inside when he completed his work. That was more than three years ago and recently the patient, on whom the operation was performed, complained of feeling some foreign substance inside.

So there was another operation, quite successful in recovering the lost instrument, but unfortunately resulting in the death of the patient. The coroner had to decide whether the surgeon in the first place was negligent, and the decision was that he had been negligent, but not the sort that could be called "gross and culpable."

His view was that a surgeon on such a case might have a dozen forceps, etc., around him he could be held guilty of criminal neglect.

There were only ten or eleven left after the operation.

Rather a lenient view to take, and one that the surgeon himself would hardly care to defend. Leaving a pair of forceps inside a person is a quite serious affair than leaving the key rake in the meadow for the winter.

**Mary drives
The New Star Car!**

Dear Jim

Have you closed the deal? Because, if not, I have the final move to give you.

Mary drives the car!

You know how tired she is of car? I took her out Friday afternoon, in fifteen minutes she had mastered the simple gear shift, she fed the gas as tenderly as she reads a book to the baby, and with her eyes shining and face flushed, she drove proudly out the highway, like a princess.

Of course, you know the fears I had I thought she'd rattle the gears, bust the frame and what not. She did, as a matter of fact, go into the ditch at a curve, but without my help, she went into low and out came that sturdy Star car, as smooth as silk.

I'm going to leave the dickens of a time getting the kind of my new Star car from Mary, now. But never mind, if Mary can handle our new Star car, I know it will be no problem for me to handle it in its favor with you.

Let's know the verdict.

Dar,

Bob

It is the most that could be said of the new Star car. The new Star car is the most that could be said of the new Star car. The new Star car is the most that could be said of the new Star car.

FOUR IN FAMILY BORN SAME DAY

Ottawa, Nov. 15.—Canada's youngest birthday party will be celebrated on November 21 at the home of Mr. and Mrs. Camille Gubion, 248 Montreal street, Hull.

Three twins, a boy and a girl in each case, born within the same hour, on the same date in 1912 and 1920 will be the youthful guests of honor. The proud parents, Syrian by birth but Canadian by naturalization, are former Ottawa residents. Mr. Gubion is a merchant in Hull.

The first twins were born at 1.30 p.m., November 21, 1912, while the second were recorded at 1.30 p.m. in 1924. A daughter was added to the family and at 1 p.m. November

OLEARY LEAVES

Hamilton, Nov. 15.—Having received orders from a barrister concerning the Old Country, Michael O'Leary, V.C., over whose case the city of Hamilton was recently stirred up is to sail from Montreal on November 17. It is stated that his wife and family, who were sent back to Ireland about three weeks ago by the city, will join him in London. He had been employed with the Soldiers' Aid Commission in London for the past few weeks.

On 21, 1920, twins were born to him.

Names which indicate the happiness of the parents were chosen for the boy being called Francis and his twin sister Zola. When the seven twins were born they were christened Fandy and Eddy. Eddy is the name of the other girl.

Mr. and Mrs. Gubion are 41 and 39 years old, respectively. The first twins today in the fortuitous years they have lived together in happy wedlock. Their greatest pleasure today is the future of the preparations for the birthday party of the four twins.

Guests who will be present may have some difficulty in distinguishing the twins as the girls have grown to look very much alike and the boys follow. Their example, despite the eight years which separate their ages!

DR. MALOTT AT

(Continued From Page One)
celebration welcomed the visitor by giving the Canadian flag and at the conclusion of the service Mr. Malott "Hymn From Home" and "The Hawaiian Farewell."

"The Meeting of Shaboo," was Mrs. Dr. Malott's subject. His text was from Gen. 43:1, "We are true men." Related in the story of Joseph sold as a slave to his brethren and their subsequent appearance before him in the famous episode down to Egypt. Some men under-estimate their worth, others have a higher conception of themselves, has declared. Jeremiah, the prophet, acknowledged his thirteenth order to find a true man. Ezekiel reported that some could be found in his day. The doctor sought with a laser, had many applicants but judged these flimsy.

Heredity desired a hero man. The human critic came to the conclusion that good men could only be found buried in continents. Dr. Malott considered that these extremes were not as striking upon the most of mankind. There is a standard. Most everyone falls short of measuring up, according to Goldsmith's opinion.

Canada has a wonderful possibility to be 1,000,000 men. With a full religious heart they could make us the greatest country. Manhood is the most of mankind. There is a standard. A virtue philosophy is necessary. The Psalmist says, "that the glory of a young man is his strength." Spirit of a right nature are important. But there needs to be development of manhood as well as of law. Law says we are in the infant class until 18 years old and until we can exercise citizenship rights.

The Psalmist says, "that the glory of a young man is his strength." Spirit of a right nature are important. But there needs to be development of manhood as well as of law. Law says we are in the infant class until 18 years old and until we can exercise citizenship rights. Some people are even lazier than they have credit. While other believe they have outgrown the infant class long before they actually have done so. Are we any content to poorer have others serious thinking in their behalf? Answered Rev. Dr. Malott, "No, we allow other men's opinions to be dictated upon us. How are we affected by man's movements and suggestions? According to Dr. Malott, the way of reasoning, many previous ones are wasted by tactfulness of God given wisdom. The most common errors are suppress. The Greeks recognized courage, not courage for others, are suppress. It is displayed today by our doctors, nurses, farmers, statesmen and soldiers. It is displayed in the streets. It is displayed not simply by the echo of others. We can be men here. Not always is the majority in the right. There are forces to pull us down from better standards. Honor is the need of today in men "whose life is as good as their word." It is not the rule, manhood gets the upper hand. Dr. Paul speaks out, "The power of self control is the most emphasized virtue in conduct. It is the thing that makes the difference between the definition of a gentleman. Dr. Malott considers one to be possessed of the spirit of Christ, kindness, unselfishness, helpfulness, and true to one's word. David in the 15th Psalm describes such. Dr. Wilson stresses the Christian type in health, intelligence and piety. Much credit to his funeral oration of Mrs. Malott's words. "Rebeld the Man." The apostle St. Paul in II Timothy 3:17 says, "That the man of God may be perfect, thoroughly furnished with all good works." True manhood is attained in Jesus Christ.

Following this a series of Sunday morning services "Speech Making Series," Rev. Dr. F. E. Malott yesterday morning in Bridle Street Church, Ottawa, was the "The Man Who Made And Unmade Kings."

cane and make it that way. With no clothes, I would have probably frozen on the island, but with my double U I could have got warm again by stamping around to dry the cane and paddle to show, I would only have got a very bad attack of pneumonia.

Knowing the danger of cold, I try pneumonia which would have killed me, yelling to help towards a farm house or the south shore. They could not get their punt out because of the ice, so they returned in Hottentot to get a motor boat.

More Callaghan did not save me from drowning, because I was still only, being when he got to me, and I was only about 75 yards from the island; but he did save me from either dying or being of cold, or from an attack of pneumonia which would have killed me.

If the water had been warm, I could have gone to Manassas with the canoe, but as it was cold, I made a punt-iron I was flat in. I was by no means unaccustomed when I was paddled as soon as I was out of the water, it was all I could do to stand and stamp around.

The water is the main attraction for me in the summer and I paddle and swim whenever I get a chance. Last summer I was two bachelors out at a camp at Hottentot and went across the bay while I was there as well. I did not swallow one drop of water while I was out and had very perfectly dry when I was paddled out.

It is in proximity to get something in the water, both the better down into it, and when I was out, I was small (and sometimes not) it is in my small canoe when I was in the water.

Yours truly,

ANNULMENT GAVE SHOCK TO CHURCH LEADERS IN N. Y.

Chancelor Claims "She Was Forced Into Marriage With Duke"

New York, Nov. 15.—The authorities of the Protestant Episcopal Church and its members were startled today by further revelations respecting the annulment of the marriage of the Duke of Marlborough and the former Countess Vanderbilt of New York. Bishop William Manning, head of the Episcopal Diocese of New York, thinks the annulment "astounding and incredible."

The marriage was annulled by Decree of the Catholic Diocese Court at Southwark, England, which was upheld by the Tribunal of the Holy See in Rome. Annulment, the sacred sacrament was granted, on a plea of the former Duchess was forced to the Duke, she alleged the Duke several times said and told in the wife of Col. Balmor of France.

London, Nov. 15.—Countess Vanderbilt's claim to her marriage in the Diocese of Southwark was given "finality" and "therefore they were never married" in the eyes of the Roman Catholic Church. "The Evening News" reported Bishop Patrick of Southwark, in declaring, it was the Diocese Court of Southwark which annulled the marriage with a confirmation of the verdict by the Holy See. Princess in Rome.

Report that Mrs. O. P. Belmont, who divorced William K. Vanderbilt, father of the former Duchess and other relatives appeared before the Diocese Court and testified that Duke was used in obtaining consent of Miss Vanderbilt to her marriage with Marlborough, has not been confirmed. No comment has been obtainable from Mrs. Belmont. Mrs. Harry Payne Whitney, sister of Countess and other members of the Vanderbilt family, have refused to be interviewed.

Coughs and Colds

What a wealth of responsibility on the mother of the family during the winter months. In every cough and cold she seems to hear the warning of serious developments. The croup, whooping, bronchitis, pneumonia and influenza that come on the natural result of neglected colds.

But Dr. Chase has provided a prompt relief for coughs and colds and a positive cure of croup, whooping, influenza and pneumonia. It is Dr. Chase's Syrup of Linseed and Turpentine.

It is a medicine that mothers who do not know of it, are in danger of neglecting. In croup, whooping, influenza and pneumonia, it is a medicine that mothers who do not know of it, are in danger of neglecting.

ROBINSON

(Continued from Page One)

and equipped with shot guns and revolvers, the party set out from the village in a four-wheeled vehicle.

Police Fanned As they clanked into the cars, a great group of spectators watched the proceedings from Dr. Thompson's yard. Some of the spectators were not a little surprised to find the Duke of Marlborough in the car. He was seen about the Duke's estate, and measures were taken to prevent any possible violence on his part. It was thought that he would appear if it all unfolded.

Reaching a point about one-half mile distant from the Robinson home the car was abandoned and the party proceeded on foot through the fields and into the woods.

When about one-quarter of a mile to the east of the Robinson home were seen coming from the chimney looking as though they were being pursued.

Growing Dark At that time the shadows were falling fast and it was deemed advisable to try to effect an arrest before it grew too dark.

Thinking aloud of several attempts to seize the party advanced courageously and when about fifty yards from the house the posse divided. Constable Atkinson, B. C. Dumas and Provincial Constable Henry McCoy going in one direction and Inspector Gurnett and Constable Clarke in another. Mr. T. J. Allen, Clerk of the Court at Malton was stationed near the rear of the house with a shot gun as the old man should encounter any long distance. As the Intelligence representative reported a alarm at the back of the house a man was seen in the yard. The officer continued their march and Constable McCoy went through a back door and the others followed to the main stable other side of the house. It proved to be the wanted man and he was taken without any resistance.

He was consumed six to one by the officers.

Threshing Entering the house it was found that a mass of threshers who had been sent by Robinson to bring away his supply of grain had just completed their work and were waiting for supper.

Robinson was taken into custody and was tied to prepare himself for the trip to Belleville.

Quickly he washed and dressed with very promptness.

Lancel, his brother, protested to the officers and asked that his sister Elizabeth be allowed to remain at home, at that time she was talking loudly and the press surrounded her cry.

Robinson was taken into custody and was tied to prepare himself for the trip to Belleville.

Lancel was grided by Mr. Dumas as to events of the day.

As seven o'clock the party were held around in cars and the return to the village was started.

Upon reaching Eldorado the cars were stopped and both of the Robinsons were taken into the room occupied by the Intelligence representative.

At that time Dr. Thompson told the Intelligence representative that the Robinsons were not a little surprised to find the Duke of Marlborough in the car. He was seen about the Duke's estate, and measures were taken to prevent any possible violence on his part.

The Robinsons are reported to be very wealthy but have never said a word on their property and have been in constant trouble with the law. An old Ford car of an ancient vintage was noticed in the yard. It bore a license plate dated 1910 and was registered in the neighborhood state that never have been taken out the necessary permits required of motor cars.

CANADA'S WOOD RETURNS AS A RIVER OF GOLD

Exports From Forests and Mills to United States \$241,745,337

Ottawa, Nov. 17. (By Canada Press)—Canada's exports of wood and paper to the United States are increasing. They now form more than one-half of the total Dominion exports to the United States. In the month of September alone, out of total Canadian exports to the United States valued at \$241,745,337, wood and paper accounted for \$120,819,429.

The September figures are not as favorable, however, as the year-end figures. The flow of Canadian wood and paper to the north is a great and constant improvement. More and more Canadian forests are being used to supply the needs of the American and Canadian markets and others to the United States.

The September figures for the one month alone, September 1929, are typical. Dominion statistics now available show that the total value of exports from Canada to the United States during the twelve-month period ended September 30, 1929, reached a total value of \$241,745,337. As in the single month, this represented more than one-half of the total Dominion exports to the United States during the twelve-month period.

During the twelve-month period, which, according to \$241,745,337, when the value of wood and paper exports to the United States during the twelve-month period was increased by over eleven millions. The Dominion exports of wood and paper to the United States are increasing in value than any other class of goods imported by Canada from the United States. In the twelve months ended September 30, 1929, the value of Canadian exports to the United States was \$241,745,337, an increase of \$11,000,000 over the twelve months ended September 30, 1928.

In contrast to the heavy movement of wood and paper from Canada to the United States, the exports of other commodities by the Dominion to the United States are decreasing. The total value of Canadian exports to the United States during the twelve months ended September 30, 1929, was \$241,745,337, an increase of \$11,000,000 over the twelve months ended September 30, 1928.

Of the principal items which go to make up the great total of wood and paper exports from Canada to the United States during the twelve months ended September 30, 1929, are as follows: Wood sawn and planed, \$104,841,730; paper, \$11,000,000.

BIG PRO. LEAGUE GETS UNDER WAY

Boston, Nov. 17.—Boston Brown, strengthened by the acquisition of six new men, opened their National Hockey League season tonight with an impressive 4-to-1 victory over the Canadiens of Montreal. It was a windy, wet night for hockey, but sultry and damp, yet it was the biggest hockey crowd that ever saw a game in Boston.

The Bruins stroked in the front with two goals in the first three minutes of the second period, and from that point on the finish the flaming rivalry Habitués were fighting a defensive battle, with an occasional run by Howie Morena or Arvid Joliet.

Madison Square Garden, New York, N.Y., 17-Marched. Maroon's professional hockey championships, went down 1 to 0 defeat before time on-sight of the New York Rangers in the opening game of the National Hockey League this season. The New York Rangers, Western League stars, created a favorable impression in their appearance in Gotham. Their victory was well earned, as at no time did the Maroons show the form which had been expected. They had been the only goal of the contest, which they rather rugged did loosely played, was scored in the second period with less than two minutes of the period remaining. Bill Cook, the Maroon's star, was pulled from his brother in front of the Maroon net and slipped the disc past Benedict. The latter, who was sprawled on the ice at the time, was injured in the play, but after respite was able to con-

Pittsburg, Nov. 17.—A substitute Bouchard, won for the New York Americans, 1-0, over Pittsburg tonight in the opening game of the National Hockey League season here. Bouchard, who went in for Langlois at left defense scored the only goal of the game in the first period.

The game, unusually rough at times, attracted a fair sized crowd.

**LONDON OPENS SEASON
WITH FINE VICTORY**

Niagara Falls, Ont., Nov. 17.—London came here last night and carried off a 2-1 victory over Niagara Falls in the opening game of the Canadian League. The game was fast and interesting and most players showed some desire; their victory however more speed and condition than the homesters. Keeling, at left wing for the Forest City team; was the outstanding performer of the evening. Boucher, Arris, Starkins and Duggan, all played effectively. For the locals, Reiso on defense was outstanding, and his clever blocking and speedy rushes were a pleasing feature of the game. Hollings at right wing, Chouinard at center and Kelterbourn and Herrington, utility men, all played well for the

BASKETBALL

Christ Church Juniors were equal to the occasion when it came to taking back St. Andrew's Juniors in the Church League basketball fixture at the Campbell St. Gymnasium yesterday evening. The score was 10-4 in favor of the home side. It was this they secured by more accurate shooting. Although they had considerably less shots than their opponents they were able to make their efforts count and lead early in the game. It was a matter of confidence. J. Carter of the winners was the scorer of the both free-throw, linking of his teams five baskets. John Fisher grabbing off the odd one. Kerr and Bobbie Chadwick each had of their teams two goals.

The line-up:
Christ Church—Chic Folwell,
Carter, Johannes Fisher, Barnett S.
Jim Folwell.
St. Andrew's—A. Kerr, D. Hol-

DUKE AND DUCHESS OF YORK ABSENT FROM HOME 6 MONTHS

London, Eng., Nov. 17 (By C. P.).—The Duke and Duchess of York will be away from England for six months on their trip to Australia and New Zealand, it is shown by the recently issued official program. The primary purpose of the Duke's visit is to officially open the new Australian Commonwealth capital at Canberra.

On January 6, they will leave Portsmouth and will visit the Palace in Jamaica, where they will arrive on Jan. 20. They will stay three days in Jamaica, after which they will proceed via the Panama Canal to Peru, arriving there on February 17. They will stay two days in Lima and will then proceed to Auckland, where they will arrive on February 22.

After spending two days in Auckland, they will visit various parts of the North Island of New Zealand, including Hamilton, and will reach Wellington on March 5. They will remain there for three days. Then they will tour the South Island, visiting the West Coast, Christ Church, Dunedin and Invercargill, and will sail for Australia on March 22.

On March 26, the Duke and Duchess will arrive at Sydney and will remain 11 days in the State of New South Wales, after which a visit of eight days will be made to Brisbane and the various points of Queensland.

This will be followed by a five-day stay in Tasmania, and on April 1 they will arrive in Melbourne, where they will stay until after June 1.

After visiting various parts of Victoria they will leave Melbourne, where they will reach on April 20. They will remain in South Australia, after which they will return to Melbourne on May 6 for the ceremony of the transference of the Commonwealth Capital to Canberra, which will be held on May 8. On May 12, they will leave Melbourne for Western Australia, where they will spend five days, sailing for home on May 23.

The Duke and Duchess will return via Canton, where they will spend three days, and the West Coast. They hope to be able to pay short visits to Malta and Gibraltar during their passage through the Mediterranean. They are expected to arrive home at Portsmouth on Monday, June 27.

BOTANICAL SURVEY

A BORN TO AGRICULTURE

For many years the Geological Survey, and later the Victoria Memorial Museum, and the Department of Mines, Ottawa, have been engaged in botanical exploration with a view of obtaining information about the botanical resources of Canada. These investigations are quickly darkening. Not far people outside of those interested in botany, know much more than the extent and nature of the work. But few realize the practical value. As an illustration of the intimate relation between botanical exploration and the development of agricultural resources in Canada, the following is rather instructive.

A few years ago, when a country-wide demand for large quantities of turf grass seed of a superior quality began to attract the attention of the Dominion Department of Agriculture, the Seed Commissioner, Mr. Geo. H. Clark, undertook to investigate the possibilities of developing a seed growing industry in Canada, which would meet the Dominion independent of imports from other countries.

It is an undertaking to ascertain where in Canada such turf grass seed might be produced in quantity for export. The Seed Commissioner assigned the task to Mr. M. O. Malte, Chief Botanist of the National Herbarium, Victoria Memorial Museum, from

records in the National Herbarium and also from personal knowledge of the flora of the various provinces. Mr. Malte was able to point to particular localities in the Maritime Provinces, where the seed growing purposes, and where a particularly fine grass, *Callitriche*, was growing in a practically pure state.

Under Dr. Malte's supervision as to correct identification of species, the Seed Branch of the Dominion Department of Agriculture has in the last few years made good progress in the development of a new seed growing industry in Prince Edward Island. In 1935, 80 growers received \$12,000 for broomrape seed which in previous years had been allowed to go to waste, and this year there are not less than 450 growers, with a prospective crop of 75,000 pounds.

In the summer of 1932 Dr. Malte visited Prince Edward Island, and identified broomrape still more valuable turf grass, the *Valer*, which is now being propagated for commerce under the direction of the Seed Branch of the Department of Agriculture. The development of the seed growing of this exceedingly valuable crop of broomrape, with which the broomrape seed industry may reasonably be expected to make Canada the most stable source of supply in the world for fine turf grass seed.

LETTERS TO THE EDITOR

To the Editor of The Intelligencer: I was very pleased to hear Mr. McGoewill say at the meeting in the City Hall, "I am a prohibitionist; have always been a prohibitionist." But I wondered why he was speaking at that meeting. It was not the prohibitionists that brought him here. But Mr. McGoewill is a prohibitionist. Many years ago the General Assembly of the Presbyterian Church declared that the goal was prohibition—the entire suppression of the liquor traffic. That decision has been reaffirmed. She did so at the convention in Toronto, in June, 1928.

Mr. McGoewill was a member of that as-

sembly. If he were not a prohibitionist, he would not have said so. He would not have said so. He would not have said so.

Mr. McGoewill deplores the evil of intemperance as all good men do. But unfortunately he has no remedy, at all events I heard him mention none, unless it be prohibition. If prohibition is the only remedy for intemperance, then, why is he a prohibitionist? His word was in error when he stated that there is no other remedy. He stated that there is no other remedy. He stated that there is no other remedy.

He stated that there is no other remedy. He stated that there is no other remedy. He stated that there is no other remedy.

PROHIBITIONISTS CASTIGATE MEN WHO SUPPORT G.G.

Speakers Last Night Claim
Only Partisan Spirit
Sways Conservatives

A mass crowd gathered last night at the City Hall hall, evening for the meeting in the interests of the Prohibition candidate, H. W. Ackerman.

The chief speakers at the evening were Mrs. John Wilkins, of Toronto, president of the women's department of the Prohibition Union; and Rev. R. G. Brown, pastor of St. Andrew's Church of this city.

Mr. Brown declared that the statistics recently made by Sir John Wilkins and Sir Thomas White on the present issue could be traced back to relations with the Conservative party. "On one side there is the liquor interest supporting Government Control and on the opposite side the majority of the Churches, social institutions, doctors and school-and-day school workers," he said. Mr. Brown stated that the majority is based with a great moral issue and he felt it his duty as a minister of the Gospel to take an active part in the campaign.

He also how the Ferguson Policy would improve conditions. He spoke of a series of articles in the Mail and Empire as the "best propaganda for Temperance Control." An extract from a paper was read which inferred that the name in Vancouver should have been omitted since Government Control went into operation.

"Government Control will not succeed here, because the liquor interest will not stop. He felt he has been down in the past," he stated.

Rev. Dr. C. Ramsey who acted as chairman said he has every faith that Mr. Ackerman would be elected to lead.

NEW SYSTEM OF FREEZING FISH

Brine Method Leaves Product Equal to Fresh Fish on Market

Prize Report, B. C. Nov. 19 (C.P.)

A new brine method of freezing halibut that will make it possible to market frozen fish on the Eastern retail markets as the equal of fresh fish has been devised here.

At the recent opening of the new facilities experimental station at this point a demonstration of the new method was given by D. B. Finn, acting director of the station, in the presence of J. J. Conn, secretary of the Biological Board of Canada.

The demonstration showed the difference between air frozen and brine frozen halibut under the new system following investigations that have been going on for some time. Air frozen halibut, it was shown, was relatively dry when thawed out and the fish was in no way comparable to fresh halibut, whereas the fish, when the brine freezing method was employed, could hardly be distinguished from fresh fish either in texture or quality. The new method that needs it possible, the demonstration served to place before future halibut when thawed out on the market as the equal of fresh fish which was impossible to do under the air freezing system.

CANADA SHIPS FOXES TO GREAT BRITAIN

Toronto, Ont., Nov. 18.—Valued at over ten thousand dollars the first shipment of foxes to leave Canada for the United Kingdom was taken over by the Canadian Pacific Express Company at North Toronto station tonight. There were fifteen foxes in the shipment, the most valuable being imported by D. J. Thompson and grand champion of the 1925-1926 agricultural season last year.

This animal was valued at forty-five hundred dollars and owned by Colonel Ross who operates the Oakville ranch. The others are mostly pure, which have been acquired by J. A. Macdonald after spending a year in Canada at various fox ranches in establishing one of his own at Northville, Annapolis, Nova Scotia. Macdonald, who fathered a reputation for being the second most wealthy in Scotland himself, went to the United Kingdom to the Express Company and will accompany them and report on the foxes to the British.

They were reported dead and buried in an epidemic of foxes in the Orkney colony at Kyness, Japan. Some foxes have been a subject intended to arrive 2,000 foxes from the Netherlands, which injured a London fox hunter to prevent a child's death. James Wilson, 75, former C.P.R. agent, was killed in a motor accident last week. Mrs. C. K. Davis was killed in a motor car in Quebec.

FIRE PREVENTION SPOILS GOOD SHEEP RANGE

Brush and Fallen Timber
Also Produces Many
Fires

Worcester, N. C., Nov. 19.—Prevention of brush fires in certain sections of the interior of North Carolina is being made a matter of special importance. The state has a large area of sheep range and brush and fallen timber are a constant menace to the sheep and the range.

As the fire has not been allowed to run in the lower ranges, as in the days before effective fire protection methods were adopted, they are said to be the present time when a small brush fire in a timber which makes it impossible to herd sheep, even if it is kept from reaching the sheep. The small brush fire produces numerous fires, as it is liable to have the livestock and game out.

Firemen have been told that it is natural for their mountains to get

J. J. Hunter, Kinsale newspaper man, who is to be elected president of the Independent Telephone Association.

As the fire has not been allowed to run in the lower ranges, as in the days before effective fire protection methods were adopted, they are said to be the present time when a small brush fire in a timber which makes it impossible to herd sheep, even if it is kept from reaching the sheep. The small brush fire produces numerous fires, as it is liable to have the livestock and game out.

Storage Of Field Roots (Experimental Farms Note)

The late fall months frequently find the grower with a supply of field roots on his hands, but, as an advisory place to store them. Under such conditions the surplus of roots can be taken care of to good advantage by the use of a properly constructed pile of field roots. The roots can be constructed in the following manner. Select a well-drained location, preferably where the soil is light. The next step is to dig a shallow trench about six inches deep, and not over four feet in width, and in the center of the trench lay a layer of straw. This straw should be covered by about six inches of the surrounding soil. When this layer of straw has been laid, then the roots should be laid out in a second row of straw should be put on and over this a second six-inch layer of soil.

ACTIVITIES OF THE DOPE RING BEING PROBED

Ottawa, Nov. 19.—Liquor and narcotics department were the special feature before the customs examination Friday. G. W. Taylor, acting deputy minister of customs, after telling the examination that the practice of liquor in form of sugar bags was still being smuggled, stated that he was not permitted to ship liquor in cases "in bulk" with him. Mr. Taylor said that in the month of June of this year, he had become aware of the fact that Canadian distillers were shipping liquor in cases with bees. This practice has been going on for months and he discovered that it involved some at least five out of nineteen Canadian distillers. He had noticed the practice, assuming either on instructions of Hon. H. H. Stevens, then minister of customs, or J. D. Chaplin, who was acting minister of customs during Mr. Stevens' illness, he was not quite sure. The order was signed for protest from the distillers, witness said. Representatives were made to Mr. Stevens, but the explanation was that the practice was not being stopped. Finally on instructions of Mr. Chaplin the practice of packing liquor in cases with bees was permitted to stop. The change was made because of representation that this practice was permitted to Great Britain and that the restriction was hurting business of Canadian distillers.

Mr. Taylor, speaking as he was, said that he thought shipment of liquor in cases with bees in the liquor to the extent of the estimated value of the goods at the time of seizure, was being done by the distillers. He said that the practice was being stopped by the customs department. He said that the practice was being stopped by the customs department. SPEED DURABILITY SAFETY in the New Rapid Element SPEEDRON

At last—after years of experiment and research, a perfect, rapid cooking element has been developed. An element which brings speed, lasting durability and absolute safety to electric cooking—McClary's Speedron!

This wonderful, new, rapid iron element is as far ahead of all others as electric light is ahead of candle light.

McClary's Speedron is the only protected, removable, repairable element made. It operates on contact heat. This gives it marvellous speed and eliminates waste by radiation, which is one of the greatest defects of open elements. And the Speedron is durable. It cannot be injured by liquids boiling over, spilling, or contact with pots and pans.

The cast iron surface protects the coils year in and year out, which is one of the greatest defects of open elements. And the Speedron is durable. It cannot be injured by liquids boiling over, spilling, or contact with pots and pans.

Now On All McClary's Electric Ranges

This great, new electric cooking feature is now on all McClary's Electric Ranges—making it the most efficient, satisfactory range on the market. And you also get the exclusive advantages of McClary's famous porcelain-enamel "indirect cooker" oven—the oven which keeps on cooking even after the current is turned off.

ANNIVERSARY OF SHOE REPAIR FIRM SHOWS TRADE PROGRESS

After 12 years' Experience
B. W. Brown Now Has
Two Shops

Exactly fourteen years ago, Mr. B. W. Brown, prominent local shoe repairman on Campbell Street, established a business of his own in Belleville. To-day, in November 1926, that young Englishman who commenced in Canada 1909, and wandered in struggle to run an honest business on a small different place with two different customers, is the proprietor of two up-to-date shoe repair stores in Belleville, with the best of the shoe repair business in the town. He has numerous boys and men's shoes to repair, and they are independent business. Among those known locally who are their appreciative in Belleville under Mr. Brown are: Mr. Brown, of King street; Mr. Willey, of Cadogan; John and George Henry, of Cadogan; and John and George Henry, of Cadogan.

And what of the future in the shoe repairing business? Mr. Brown is of the opinion that in the next ten years, the shoe repairing business will give place to a factory like establishment. There isn't a boy in Belleville today who doesn't have a pair of shoes. Mr. Brown says, "I am, under present conditions, not sure that I can perform and repair shoes in the next ten years."

A few months ago, Mr. W. E. Armstrong, of 72 Lincoln Street, created a small enterprise at the rear of his business and went into the shoe business. This passed business developed, and during the summer Mr. Armstrong's business grew to such an extent that he had to move to a larger place. To begin with the enterprise producing this thriving floor business has adopted the latest method of repairing shoes by the use of the "hot" glue. This method of repairing shoes is the most perfect of the shoe repairing business, and it is the most perfect of the shoe repairing business. It is the most perfect of the shoe repairing business, and it is the most perfect of the shoe repairing business.

After fourteen years in business in Belleville, Mr. Brown is today the proprietor of two thriving stores on Lincoln and Campbell streets, and finds business growing good. Indeed, if his business expanded at a corresponding rate during the next ten years, Mr. Brown will have ample cause for his belief that sitting posture of the shoe repairer. At Belleville as a business centre can't be the time Mr. Brown started for himself here.

Everything must be looking it best at Christmas time. But take a turn on and start now to get things in shape, you can easily do that last night rush-in many things at first-hand before you way to do it. That furniture that perhaps looks a little shabby and worn after long faithful service could stand reupholstering and in the hands of an expert, can be made to look as good as new. We suggest your taking it to the Quinze Upholstering Firm at 112 Campbell street—now before the rush, and having it put in shape. Years of experience will transform this goods into a good case to make a real job of it and will warrant you'll be satisfied with the improvement made in it.

Have you any antique furniture that you wish to repair? The Quinze Upholstering Firm is a specialist in this work. Try them on this week, and you'll be the result.

far from being past, and gone. The
first time a man tells you a remarkable

carrying on time and making a success
of work and persistence years ago, when
there was no such thing as a "little fellow" who
with him, and ensured that competition
only eliminates the "little fellow" who
in a small way and work up his business.
For here is a story—and a true story of
a local firm recently established—a com-
mercial man with an art but not a
man of the "little fellow" who is
and which promises to develop into one
of the leading firms of its line in the
city.

A few short months ago, Mr. W. E. Armstrong, of 72 Lincoln Street, created a small enterprise at the rear of his business and went into the shoe business. THREE-IN-ONE

Three men in a boat, one a seasoned
veteran, the other two new recruits
at the same, set out on Saturday to
shoot some of the great flocks of
ducks said to be on the Bay this year,
and got a lot of experience even if
they got few ducks. They set their
decoys up in the marshes near
Shawville, occupied themselves in
the rushes when down "swoop" a
flock of ducks. So untiring did they
concentrate on one little bird, not
forwards the end of the marsh that

anybody noticed the scores of others
nearby. With a common consent
three shot guns boomed, the one little
duck had fallen victim riddled with
shot while the newer birds calmly
looked and flew away, one breaking
the sound of the shot. The shattered
remains of the victim of the hunt
was recovered minus most of its
feathers, and what most could be
picked out from amongst the shot
was said to have been most delectable
when eaten by the three hunters.

WM. BOWLER RECOVERS

William Bowler, injured at the
Hastings Paper Mill on Thursday
night, is making satisfactory progress.
Dr. J. J. Hodgson told The Intelli-
gencer this afternoon.

BROKE ANKLE

Slipping on the glazed sidewalk at
Station street, Mr. Wm. Marshall
sustained a severe fracture of his
ankle last night at about 7 o'clock.
The sidewalk which was on the
slight incline, took the injured
woman to the hospital where the
fracture was reduced by Dr. J. J.
Hodgson.

STOLE FOOD

A young man who resides in a
nearby village was charged before
Judge Wylie this morning, with steal-
ing a quantity of food from a former
boarding mistress. The accused
pleaded guilty to the charge and was
given a suspended sentence of one
year. He told a story of having been
driven from the home town by the
mistress there for having been in-
timated to with a wife of his. He
came to this city and secured work

but unfortunate circumstances led to
his leaving a hard bill unpaid, and
in order to secure something to eat
returned to his former landlady's
house and was subsequently arrested
by the police. The man's mother was
in court and offered to pay the bill
contrived by her son and promised
to take him home and keep him
under close surveillance. A complaint
was made with him at the time who
claimed no special home, was given a
chance to pay the bill and must
report to the chief at intervals for
the next year.

BIG OWL

A beautiful owl with a wingspread
of nearly three and a half feet, was
brought in here by a man from over
the bay, who took it with him on Saturday.
The owl was nearly new white.

FINED \$3.00

Showing too freely in idleness
last night two youths a total of \$3.00
in fines and costs in police court this
morning. They were arrested to
take a disturbance, music to the annoy-
ance of the proprietor. One of the
young men called the other to a charge
of his friends N.Y., last week and he
brought him into in satisfaction of
repaying his arrival. However, he
should report to the chief at intervals
for the next year.

RECKLESS DRIVING

A young man who struck a buzzer
on the highway while driving a car
last night, was charged with a charge
of reckless driving this morning and
was fined \$20.00 and costs in police
court. The accident occurred in the
Township of Thurston. He was
arrested under bond for next year. He
was released by C. A. Payne. The
Provincial Police makes the arrest.

blown off in a canoe.

Social & Personal

Mr. D. C. Ramsey was in Toronto
today.

Mrs. Stewart Robertson, who has
been on an extended trip to the Pa-
cific Coast and London, Ont., returned
home yesterday.

Mr. Hugh Middleton was a notable
presence at Rydeman Street United
Church, Kingston.

Miss Minnie Kane of Kingston is
visiting in the city.

WALSH-MULLIN
In St. Charles' Church, Brock, this
morning, a most pretty wedding
was solemnized. Reverend Father
McCarthy officiated. Miss Elizabeth
Mullin, daughter of the Rev. of St. Charles,
James Walsh. The bride was attend-
ed by her sister, Miss Nellie Mullin.

while Lawrence Walsh, cousin of the
groom, acted as best man.

The wedding party entered the
prestily decorated church, to the
strains of the Wedding March played
by Miss Eva Bowman, the bride
was given in marriage by her
father, Patrick J. Mullin. During
the ceremony songs by Miss Bow-
man and Miss Lucy Mullin were
loquently rendered.

After the ceremony Mr. and Mrs.
Walsh left for Watford and other
sister cities.
Among other gifts received by Mrs.
Walsh, were a valuable diamond and
a set from Mr. G. T. Woodley, and a
silver vase from Harold, Russell and
Miss Marion Woodley and Miss Jan-
ette Mullin, also a cheque of large sum
donation from her father.

Failure of O.T.A. Also Shown By Enormous Sale of Flasks!

Toronto Star Weekly discloses shocking conditions—

The houses contacted here—self a committee of one to see that all pocket flasks were checked before her male guests were allowed to go to the courtroom

"Fud? They're part of our bread and butter."

6,000 flasks will have been sold in Toronto by the end of 1925.

And then—the next morning he discovered when looking under the bed for his shoes fourteen empty quart, whiskey bottles! This bedroom had been the men's dressing room.

"I wear a flask to those places. I am supposed to wear a flask for exactly the same reason. It is a social custom. A convention."

either you'll have to give me a flask and let me carry it, or I'll simply have to refuse 70 per cent. of the invitations I receive.

THE necessity for a sane temperance policy, as proposed by Premier Ferguson, is clearly indicated in this full page article from the Toronto "Star Weekly" of Dec. 26, 1925.

That many young people of Ontario have been corrupted under the O.T.A. is frankly admitted by the very newspaper which is now most insistent on its continuance. Ontario is in need of Temperance Legislation which will gain the respect, the endorsement and the support of its youth.

For Deep Chest Colds

All colds should be treated with
vapors, for vapors alone can carry
the medication DIRECTLY to the air
passages and lungs.

Vicks' Vapo-Rub is a "vapor" treatment in
vapor form. For deep-chest colds your
first apply hot wet towels over throat
and chest, to open the pores, then
massage briskly with Vicks for 5 min-
utes, spend on tickles and cover with
a blanket cloth.

Vicks not only penetrates like a
moisture or steam, but the fragrant
essence, vaporized by the body heat, are
inhaled all night long.

The double action usually checks
the most stubborn cold overnight.

lighted to accept it, because we know
it will be right, whether it agrees
with us or not, he said.

The meeting was held in the inter-
ests of J. F. Ferguson's candi-
dacy for the post of member of the
Legislative Council. He was supported
by Messrs. J. R. Cooke, J. R. Cooke,
J. R. Cooke, J. R. Cooke, J. R. Cooke,
and John Stokes, who acted as
seconders to the platform. The
school children were accorded a place
in the holiday in honor of the visit of
the Premier and Minister of Education.

J. F. Hill and Hon. J. R. Cooke
did not make lengthy addresses other
than making an appeal for order and
law, and the meeting terminated at the
homes of the Government, preferring
to leave the available time for the
Premier.

Educational Policy
Hon. Mr. Ferguson devoted con-
siderable time to an explanation of
the working of the Education De-
partment. He said that the value of
the Department was one confined to
the present syllabus or curriculum.
But books alone into the future for
the making of virtuous citizenship. He
referred to the scope of boys work
the incoherence, mentally defective,
sub-normal and those otherwise un-
able to work for an education, stating
that the government was improv-
ing according to the need, salvaging
the wastage from these unfortunate
handicapped youngsters, towards
the betterment of the commonwealth
of Ontario. Education is the right
of every citizen. The state owes it to
the child and the opportunities of
proper training are going to make
available to rich and poor alike. We
are giving progressive aid to the
crumblers of our north, those well-
fare of the age are becoming embur-
dened and impregnated with the British
teachings by the curriculum
schools of teaching by our adminis-
tration.

Grow Responsibility
"Today," Hon. Mr. Ferguson con-
tinued, "you have one of the greatest
responsibilities and questions to set-
tle for have ever confronted the
state."

taken by emotion. Give us the
most earnest, emphatic and energetic
pro- a proxy for your confidence in
this matter. The organizations op-
erating in the true public interest of
the people have never put advanced

an argument other than personal
attacks and vilifications, Ferguson is
getting above all this," he said.

Mac Donnell Personally
"Yesterday I was speaking to a
minister of a Kenilworth church,"
a man with whom I have been
associated for years," the Premier
stated. "This man issued a plat-
form to the entire flock, asking for
signature blinding them to vote
against the Ferguson policy." Yes, in

accompany him. This govern-
ment is going to force the issue. We

The Premier charged that
back of criticism against him was
long as he was in the position of
being held up as a condition pre-
cedent to the Ontario government.
He said that the Ontario govern-
ment was not constant turmoil and
chaos. It must be replaced by a
stronger one.

waiting for a footlocker, he vehemently
stated, and explained.

A Real Plebiscite
"The plebiscite is a splendid thing

Ontario Needs a Temperance Law that can be ENFORCED

Surely items such as these appearing in daily newspapers now favoring the continuance of the O.T.A. prove it to be futile... Banish the bootlegger! Restore respect for law! Vote for a safe, sane Temperance Policy.

Outcome of Wage Award in United States.**

Montreal, Nov. 25.—Full committee of order of railway conductors and Brotherhood of Railway Trainmen have endorsed the action of their membership voting in favour of peaceful withdrawal from railway service.

Montreal, Nov. 25.—The information came after more than 300 representative of unions throughout Canada had conferred on the matter both yesterday and party today.

At 2.30 o'clock this afternoon, S. N. Berry, Senior Vice-President of the Order of Railroad Conductors, acting as spokesman for the men, made the following announcement: "Full committee of the Order of Railroad Conductors and Brotherhood of Railroad Trainmen have endorsed the action of their membership in voting for a peaceful withdrawal from the railroad service unless satisfactory settlement can otherwise be secured."

"The officials of the railroads and the department of labor of the Dominion Government have been so notified," Mr. Berry stated that no date had been decided when the men will be asked to quit work. He refused to discuss the matter further, but said that he was waiting for the outcome of the wage award in the United States.

Montreal, Nov. 25.—"No reason for excitement," declared W. C. McKel, President of the Brotherhood of Railway Trainmen, in his address to the delegates. He stated that the men will be asked to quit work when the outcome of the wage award in the United States is known.

after the work he has done in the Ontario Legislature. In 1919 it was hardly in favor of the four years' term which was placed before the voters. Today that law has passed a fiftieth anniversary is not labeled the Act. Mr. Hill said, "I don't think we have not decreased crime to prevent to be

on the increase. The provisions that were made in 1919 have not been repealed. Nobody seems to see the law back again. The Crime code, that has been said since 1916, St. Lawrence said that Mr. Ferguson had been so far from the bottom of the law that he almost to enforce it. Police protection has been increased and increased money has been put but there's nothing unusual about the government's record of being better.

The O.T.A. was not put on the books as a collection agent from those who were convicted of infraction, but instead a temperance measure. It was not a collection agent from those who were convicted of infraction, but instead a temperance measure. It was not a collection agent from those who were convicted of infraction, but instead a temperance measure.

Many prohibitionists are arguing the retention of the O.T.A. but they have no high standard on which to stand and are greatly exaggerating in many of their statements. Mr. Hill attacked the Rev. Ben Spence for this and said regard to conditions existing in Montreal under Government Control which, as he said, completely untrue. He spoke of the Rev. Dr. Hart's attitude in not respecting the laws of Ontario's regard to the showing of motion pictures in the Province. The same principle, he said applied to the enforcement of the O.T.A.

Why is it that the Western Provinces have turned down the Temperance Act and voted for Government Control? MOOSE LEGION "AT HOME" TO LARGE GATHERING

Concert and Dance Enjoyed
By Many — Prizes
Awarded

One of the season's outstanding entertainments was presented in the Moose hall last night by the Moose Legion, No. 187. An exceptionally large crowd was in attendance and from beginning to end the concert and dance was a complete success. There can be no doubt in the minds of spectators that the efficient way in which this entertainment was carried out was directly responsible in the capable committee in charge.

Before the dancing commenced a fine concert was presented by local talent. The Misses Vera and Edith finished gave two charming vocal solos, and Mr. and Mrs. Bennett favored the audience with their arrangement of "The Swan Lake." Another clever vocal solo was presented by Mrs. Bennett. The accompanists were Mrs. Elliott and Mrs. Barrett.

At the conclusion of this concert, dancing was started and continued until supper was served. For those who wished to continue the evening were arranged in one of the rooms. The lion Tom O'Brien furnished the music for the "band" of the evening.

One of the big moments of the night was the presentation of the prizes for the winners of the Lucky Shot Dance. Mrs. Laura Jones carried off a first prize, and the second prize was won by Mrs. J. H. Jones. The lucky recipient of a handsome trophy was Mrs. J. H. Jones. The party continued until about 1:30 when the guests waited through the last dance, only wishing there were to be more.

COLLEGE HILL

(Continued From Page One)
One without writing columns after column of brush of acts of the O.T. A.T. The O.T.A. is responsible for the terrible list of deaths this past summer.

"Hooliganing has become such an embarrassment in the Province of Ontario, and it is up to the people to put the O.T. out, and control this hooliganing. I want to say to the upholders of the O.T. that the hooliganing, what even of an infraction of the O.T.A. have they reported to the authorities in what way have they upheld the law? The O.T.A. is a laughing stock to the people of Ontario."

At the conclusion of Major Poutan's address a pretty solo was rendered by Miss Pratt.

A Disappointment
Mr. Glen, who was the second speaker, "I am proud to be here to support Mr. Hill and Mr. Rod, in commencing his speech. The question to my mind is I would like to know why we should return the Ferguson Government? Why did we vote for the O.T. A.T. I was told that if we voted for the O.T. our children would be killed, there would be no policemen and our country would be a land of peace and plenty. But has all this come to pass? Mr. C. M. Rod, what a sight I have seen here, and I am sure that there is not one argument of the Probationaries will hold water."

"People from outside come in here and tell us of the goodness of Government Control. Do we have more than 100,000 Magistrates who all on the bench there every day? Anyone who looks for the maintenance of the O.T.A. is a volunteer for jail or execution."

"Do you want to think, Sir, if there is a hooligan in your house, you would have your police put in there to keep the hooligan out? I think that is the way to keep the hooligan out of your house. I think that is the way to keep the hooligan out of your house. I think that is the way to keep the hooligan out of your house."

"I have decided whether we will have Government Control or have the 100,000 Magistrates who all on the bench there every day? Anyone who looks for the maintenance of the O.T.A. is a volunteer for jail or execution."

JUST FOR TELLING Hooliganing, 25c

"I think the only thing I can do is to support the policy by Mrs. Hill and Mr. Rod, in commencing his speech. The question to my mind is I would like to know why we should return the Ferguson Government? Why did we vote for the O.T. A.T. I was told that if we voted for the O.T. our children would be killed, there would be no policemen and our country would be a land of peace and plenty. But has all this come to pass? Mr. C. M. Rod, what a sight I have seen here, and I am sure that there is not one argument of the Probationaries will hold water."

"People from outside come in here and tell us of the goodness of Government Control. Do we have more than 100,000 Magistrates who all on the bench there every day? Anyone who looks for the maintenance of the O.T.A. is a volunteer for jail or execution."

"Do you want to think, Sir, if there is a hooligan in your house, you would have your police put in there to keep the hooligan out? I think that is the way to keep the hooligan out of your house. I think that is the way to keep the hooligan out of your house. I think that is the way to keep the hooligan out of your house."

MRS. W. NUGENT'S FINE ADDRESS

The address below given by Mrs. W. Nugent at a meeting of the Conservative Women's Club, yesterday afternoon, expresses the viewpoint of an enlightening woman on the issue of this election.

The temporary question, as it were, is to be decided by the voters of the province. It is the duty of the voters to decide the question of the election of the province, and to decide the question of the election of the province.

made living witnesses to a wrong system of liquor legislation. Under the provisions of the Liquor Act, they requested to the province 2863 open bars as a record of their zeal (63 to a County).

No matter how we abhor certain systems whether man or woman, we cannot honestly put them out of existence, for under British law every man has individual rights and every woman cannot be tied together in a bundle and put on a level.

In eleven years (1905-1915), liquor licenses were reduced to less than one third, reduced from 100,000 to 30,000. In the same period, the number of saloons, in the same period, was reduced to less than one third, reduced from 100,000 to 30,000.

deal with its own liquor problem. This is the contribution to the Temperance cause of Sir James Whitney and his wife.

On Sept. 10, 1915, the votes of the people accepted the Ontario Temperance Act, all bars in the Province of Ontario were closed and never reopened, and in 1915 the 100,000 of temperance received as an expression of appreciation and loyalty to the temperance cause personal and government acknowledgment.

Any unopposed elector knows that the Government of the great Province of Ontario represent the collective interests of its people and not limited to any class, important that issue may be. In greater or lesser degree all government issues have a moral responsibility. The responsibility of the people's money, safety and convenience in public transportation, sanitation, hygiene and progressive methods of education, all aiming at better conditions and enduring benefits for all classes.

Why single out and emphasize the one issue of Temperance and submerge all advance legislation and government schemes for the benefit of the mind welfare of the people?

The Dominion Government issues the Ontario permit the legal operation of distilleries and breweries. In the recent federal election there was not a word of criticism from the thousands of temperance against the enactment of these so-called industries of death.

During the campaign party loyalty was advanced and national progress was the argument, political expediency the winning tactic. Place the same where it belongs. The Province is compelled to meet an unequal situation for which they primarily are not responsible and from which there is no present release.

The Hon. Howard Ferguson and the supporters openly and fairly go to the people asking their endorsement and support to enact what they cannot prohibit. The O. T. A. is in the vigils was administered by the Dominion Government government and records show that neither expenditure of money or effort were spared to vigorously enforce the Act. Despite the enormous expenditure of money the increase of drunkenness and its associated crime prove the ineffectiveness of the act to solve the liquor problem.

The late Attorney General, W. F. Wade, was given the power of veto to unilaterally consent to enforce the law with the result that those who unopposedly regard the situation as they would that has become a menace to both the moral and physical life of our province.

Make temperance citizens by enactment of man and rejected law rather than come to submit an unopposed situation.

Who Needs Good Eyesight?

Every man, woman and child needs it. The child that his education may be obtained with the greatest ease and efficiency; the man whose work or business may be done with despatch and accuracy; the woman that his business may be handled quickly and correctly.

Bad vision is something that no one can afford to tolerate.

It cannot be denied that there are many people who would have better sight in old age if some defect or weakness, had been corrected in youth by the aid of glasses. If your vision is defective — If you are not absolutely SURE that your vision is perfect — call here for a careful, scientific examination and learn the real truth about the condition of your eyes.

with advantage for the unscrupulous and unscrupulous for the honest, youth. Fine and price terms are the satisfaction of the present law or the sin of the future to come. It is better to be honest by means than by means of severity. Ostriches differ as to the moral legitimacy of occupations and industry and the moral legitimacy of education in the final chapter for when the demand comes to let the people. The root gives in the Intelligence.

Nov. 25th, when at Mad's speaker of the opinion of the Provincial Police by stating "They want someone ahead to spread the news they were coming." This is a warning against an organization of men that are doing men toward proper criminal administration in the Province than any other agency. Faintness are worthy and usually fair to be informed of fact, thus influenced by rumor. Five other provinces under different governments have received government control and maintain some decrease of drunkenness and crime. On the records of the Conservative administration is an affidavit that the interests of temperance will be safeguarded and upheld. The issue is so important to resort to party convenience in order to any estimate.

Offer so well on the ways and means of attaining our ideal of temperance the dignity of countries of those who are supporters of Howard Ferguson's policy of Government Control, issued unopposed.

Crisp shreds of wheat!

How tasty and flavorful—and so full of satisfying nourishment! After eating **SHREDDED WHEAT** with milk you don't want anything else—it makes a perfect meal. Nothing so good for youngsters as these little loaves of crisp, oven-baked shreds of whole wheat. Delicious when toasted and eaten with butter, or as a hot porridge. **SHREDDED WHEAT** porridge is the best porridge that can be served. Children should have all the bone-making phosphates and the vitamins in the whole wheat—not simply the white starchy center of the grain which makes fat but not muscle or bone. They get it all in **SHREDDED WHEAT** in a digestible form. It's an all-the-year-round food for my meal.

CAPTURING BIG BUCKS
Marathon, Nov. 24.—An American hunter, brought down a big buck after a merry chase near the town of Marathon. It weighed 125 pounds and was the biggest one shot to date. Mr. John M. "Thorndike" of this city, went one better. He secured a buck weighing 200 pounds.

REGIONS OFF
Petersburg, Nov. 24.—The United States Office of the Interior has notified the residents of the Territory of Alaska that the region of the Interior is now closed to the public. Mr. Miller is residing on the grounds of the Interior.

UNEMPLOYED INCREASE
Petersburg, Nov. 24.—The list of unemployed is daily increasing in this city, but is nothing out of the usual for this time of year. At present there are 70 on the list at the Government Employment Bureau, and last week there were 61 new applicants and 31 discharges.

ROTARIANS' GIFT
Oshawa, Nov. 24.—White Rotarians were discussing the advisability of purchasing additional property on the Centre street adjoining the land they acquired a few weeks ago for a boys' playground. Following the regular weekly luncheon today, the argument was terminated and when Mr. J. B. Smith announced that he would pay for this additional land.

MOOSE BAZAAR
SUCCESSFUL AFFAIR

Practically deserted in red, white and blue, the Moose Auditorium was the setting for a most successful bazaar "Monday night for the Moose Ladies."

At the fancy work booth at which a lovely assortment of handmade articles were on sale, Mrs. W. Weaver, Mrs. Doris, Mrs. F. Deane and Mrs. H. H. Smith were in charge. At the very rapid business at the 5th pond, old John Miller, "Thorndike," was in charge of the nearly empty booth with its pretty display of home-made cakes, while Mrs. E. D. Dandridge and Mrs. F. Deane were in charge of the apron booth at which aprons large and small, light and ornamental were rapidly sold. Mrs. F. Deane and Mrs. W. H. Smith did a rapid business at the 5th pond, old and young patronizing the attractive booth most generously. Miss Lillian Corry, Mrs. T. G. Wells and Mrs. E. D. Dandridge presided at the tea table with its lavish and most artistic appointments of silver ornaments. Many dropped in during the afternoon and a most delightful time was spent in the ladies of the Ladies proving their selves ideal hostesses. At the door, Mrs. F. Dandridge took charge of the social department and a substantial social was realized in admission fees alone.

SAGE TEA TURNS GRAY HAIR DARK

"That beautiful, even shade of dark, glossy hair can only be had by using a mixture of Sage Tea and Balsam. Your hair is your crown. It makes or mars the face. When it fades, turns gray or streaked, just use a few drops of Sage Tea and Balsam. It enhances its appearance a hundredfold. Don't bother to prevent the mixture; you can get this famous old recipe improved by the addition of other ingredients for use on the scalp and ready for use."

It is called Wyeth's Sage and Balsam Compound. This can always be depended upon to bring back the natural color and luster of your hair.

Evergreen and "Wyeth's" Sage and Balsam Compound now because it darkens so rapidly and "reverts" that which can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time. Why murmur the gray hair has disappeared, and after another application it becomes black, fully dark and appears glossy as before.

BURNED TO DEATH

Kingsport, Nov. 24.—Thomas Hamilton, aged eighty-one years, a farmer residing near Jopville, met death on Saturday evening when his home was burned to the ground and he was unable to make his escape from the burning building.

It is doubtful if it will ever be known what part of the building the deceased was in when he was trapped by the flames, as the neighbors have been unable to find any part of the building.

Cornet R. J. Gardner, Kingsport, who was called to the scene, stated that while he was convinced the old farmhouse was burned to death, it may be impossible to find any of the charred bones. Dr. Gardner said that the survivors had been unable to find the bones of the deceased.

The guests were received by Mrs. Mervin while Mrs. P. C. Anderson, tea street, presided at the pretty tea table. Lovely fancy and useful articles were sold by Mrs. Wilson. Miss Bink in charge of the dance work table, and Mrs. Wm. Alfred was in charge of the home-cooking where every imaginable delicacy was sold.

LOSE AT KINGSTON

Queen's University Badminton team defeated the seven Belleville team who lost them at the Queen's Gymnasium at Kingston yesterday by a score of 21 to 5. Happy play featured the tournament throughout the afternoon and the Belleville team had nothing to apologize for in the work of their contestants. At the evening

play of the tournament the Belleville team defeated the two teams at tea.

CHOIR SOCIAL EVENING

Tristram and Mrs. Whendy welcomed the members of St. Andrew's Church Choir at a most enjoyable social evening last night in the lecture room at the conclusion of the choir practice at the Church. Games and music followed the sumptuous supper and the winners were Miss Josephine, Mrs. H. G. Stewart, Mrs. Maudie, Mrs. Jones, Miss N. W. Middle, and Mrs. H. H. Ralle after the singing of "Auld Lang Syne" and a hearty vote of thanks to the host and hostess the party broke up at about midnight.

Doreen Marie made many social calls on Long Island.

QUINTE WOMEN'S INSTITUTE MEET

The Quinte Women's Institute met at the home of the President, Mrs. Anna O'Brien for their November meeting with a good number in attendance.

Opened by singing the Institute song, which the members followed read by the Secretary, Miss Catherine Bradburn. A good programme followed consisting of readings, music and community singing. The report of the Committee held in Belleville was given by the delegate Mrs. J. Purdy.

The roll call "Bidding" was well responded to. The meeting was brought to a close by singing God Save the Queen. The hostess then served a delicious lunch.

Deaths & Funerals

The following is from the San Jose Mercury Herald:

Mrs. Emma L. Hambley died at her residence on South Tenth street, Saturday evening, after an illness of two years.

Mrs. Hambley came to California with her children in 1881, settling in San Jose, and during her life here has greatly enjoyed herself to a large circle of friends.

Her death is mourned by her family, her friends, and the community. She was the widow of the late James H. Hambley of Belleville, Canada, and the youngest daughter of the late David Roblin, M. P., of Napton, Canada, who represented the counties of Lennox and Addington in the Canadian parliament for many years prior to her death.

Mrs. Hambley is survived by her children: F. J. Hambley, and Helen E. Hambley of San Jose; and Mrs. Paul J. Davidson of Whittier.

The death of Mrs. Hambley will be deeply regretted by her many friends, and will be remembered by her family and friends.

NO WINTER IN FLORIDA

Bank of Montreal Assets Gain to \$781,525,145

Indications that general business throughout Canada had been improved, the very rapidly are reflected by the annual statement of the Bank of Montreal. The report, which covers the twelve months period to October 31st, probably shows the most important development in this direction of any period since the war. As a result, the bank has made very large gains both in total assets and in current assets.

With its very large resources, however, the bank has been able to take care of the larger demand being made by its customers and at the same time maintain its usual strong financial position.

Total assets now stand at \$781,525,145, up from \$718,117,976 at the end of the previous year representing a total increase of \$63,407,169, or 8.8 per cent. The total assets added to \$48,104,884, equal to 6.3 per cent of liabilities to the public. Included in the total assets are cash, Dominion notes and deposits in General and Foreign Banks, amounting to \$108,611,651, or 14.03 per cent of total assets.

Government securities stand at \$79,167,611, railway and other securities amounting to \$108,611,651, or 14.03 per cent of total assets. The bank also has a large amount of real estate and other securities.

As a result of the greater volume of business, current loans have advanced to \$122,550,345, an increase of \$17,072,145 last year, an increase of more than 16 per cent. Current loans in Canada alone stand at \$122,550,345, up from \$105,519,590 a year ago, and include loans to cities, towns and municipalities.

Current loans in the United States stand at \$17,072,145, up from \$10,519,590 a year ago, and include loans to cities, towns and municipalities.

Shall we flood Ontario with hard liquor from TWO sources?

ONTARIO

NEITHER facts nor common-sense support the fallacy that government "control" will do away with the bootlegger.

The bootlegger takes no holiday—knows no Sunday—never closes "shop".

With hard liquor once more a recognized, approved beverage, the bootlegger—and his customers—will find it easier to avoid detection.

Listen carefully to ex-Attorney-General Nicks, who said: "The bootlegger will, if the province shows poor judgment and approves of the government's suggestion, flourish in Ontario as he does elsewhere in Canada."

From British Columbia, the Western Provinces and Quebec come proof positive that government "control" increases—not decreases—the activities of the bootlegger.

There is one way—and one alone—to stamp out bootlegging. Vote DRY and let a DRY government deal drastically with the bootlegger.

**TO THE ELECTORS OF
THE PROVINCE OF ONTARIO**

The issue with regard to temperance in the pending Provincial Election is between two temperance policies.

In this connection I would like to make clear two points:

FIRST, I was a member of the Hearst Government which put in force the Ontario Temperance Act in 1916. During the ten years it has been in operation I have been a Member of the Government of Ontario for nearly six years. My position, therefore, has given me opportunity to study conditions under the Ontario Temperance Act at close range. The Act has undoubtedly, in some respects, done much good. Unfortunately, however, it is quite apparent that it no longer commands the support of a sufficiently strong public opinion to secure satisfactory enforcement and observance.

SECOND, under the Ontario Temperance Act the Government has been operating twelve liquor stores. Our policy is to abolish the farce of medical prescriptions and substitute an official permit to purchase with proper restrictions and safeguards.

The whole question is between these two methods of handling liquor. Shall we continue to allow it to be uncontrolled, or shall we insist upon controlling it?

I urge upon you to put aside the details and consider only the real issue. We are all desirous of doing the best thing for Ontario. We must have public opinion behind the Law to insure its existence and observance. Only in this way can advance along true temperance lines be achieved.

AIKESIDE

MARY J. HOLMES

"It will not be necessary," he said, "for you to criticize the citizens of New York with regard to Madley's position. You there as Madley's representative and you will be welcome to be so."

He then went live long with Madley. Madley's brilliant booming "interiorized" his right in spite of himself. Agnes did like the wild waving away, particularly as it had reached even to signs of respect as testimony of the doctor's part. He had given away her weakness, she thought, and so his very gracious toward Madley, who, naturally inspiring, began to his harp-like voice she had ever dreamed it possible for her to like so good and laugh a woman.

Down at the cottage in Honolulu there were many considerations held and many faces expressed by the aged stylists as to what would be the result of all Gray was doing for their child, Yemmelie, Graciosa Markham felt duty of pride in thinking that Madley was going to school in a city like New York. It gave her something to talk about with her own fortunate neighbors, who wondered and speculated, and envied but could not bring themselves to feel unkindly toward the girl Madley, who was grown up in spite of age, and who was

yet was wholly unprepared by personality. Graciosa Markham, on the contrary, though pleased that Madley should have every opportunity for furthering the education she so much desired, was fearful of the result—fearful that there might come a time when his darling would shrink from the education to whom she was so amenable to the doctors. He knew that the difference between Aikenside and the cottage must arise but he enthusiastically every time she came home, and he did not blame her for her always apparent readiness to get back. That was natural, he thought, but in the New York, that great city which in the simple-hearted old man seemed a very Babylon of integrity, was different, and for a time he determined to sending her when he heard that Agnes was going there. But Gray persuaded him, and too, he consented, for he had faith in Agnes as a physician. Madley had never told her of the house which followed that lady's return from Honolulu. Indeed, Madley never told anything but good of Aikenside or its inmates, and the old people's gratitude, which even Uncle Joseph, knowing that Agnes was for the "young man," as Graciosa termed her, learned to pray for her himself.

Gray, for a moment, was a little dark, and when his crazy way that God would "improve" Madley, she so much desired, and from which there was no possible escape.

the madam—the madam.

A few days before Madley's departure, Agnes went up to see the "madam" and to know something more than hearsay about a person to whom care his child was to be partially entrusted. Agnes was, in her room when told who wanted to see her. Starting quickly, she turned suddenly while that Madley who brought the woman, free to be, said, during in much alarm, what was the matter.

"Only a little faint. It will soon pass off," Agnes said, and then, dimly, Madley, she tried to compose herself sufficiently to pass the ordeal. She so much desired, and from which there was no possible escape.

WHAT'S NEW

(From a Woman's Standpoint)

A creation recently shown by one of the foremost Paris designers was a semi-trimmed suit, composed of a three-quarter coat, short pleated skirt, and a cascade blouse the latter made of silver lamb, and the coat had generous trimmings of beak, and there was a cape collar of black satin.

London editors predict that the things too will last ten years longer, for as a New York woman says, "I've been told to say, 'is this not to Dr. D. Perinot, president of the Dutch Reformed Church Synod, who asserted the other day that long hair is a symbolical of the dignity of certain subjects of women to man'."

"Thirteen years" Had they changed her past recognition? The hoped she believed so, and yet never in her life had Agnes Huntington's heart beaten with so much terror and apprehension as when she entered the reception room where Gray sat talking with the Irish old man she remembered so well. He had grown older, thinner, poorer looking than when she saw him last, but to his wrinkled face there was the same

A little anxious as to how her attitude would rough herself, Madley sat by, wondering why Agnes appeared so ill at ease, and why her grandiose started sometimes at the sound of her voice, and looked earnestly at her.

"We've never met before to my knowledge, young woman," he said once to Agnes, "but you are mighty like somebody, and your voice when you talk low keeps makin' me jump as if I'd heard it somewhere or other."

Shall we sound the retreat?

THE scared, old battleground of Ontario is about to witness the supreme temperance conflict of its history. Is booze coming back again?

After twenty years of struggle, twenty years of victories hammered out with blood and tears—are we now to sacrifice the ground we have gained?

In the long, bitter struggle against the liquor traffic, every trench has been held and consolidated. Now, the great bulwark of the Ontario Temperance Act is assailed by all those who would make Ontario "wet" again.

Shall we then sound the retreat? Shall we yield up the ground won in the countless, heart-breaking struggles of men, women and children in bygone days. NEVER.

Let every man and woman, every voter, stand firm in the onslaught and hold up the hands of the Prohibition candidates.

ABRAHAM ROBINSON STAND TRIAL FOR ATTEMPTED MURDER

ABRAHAM ROBINSON MUST STAND TRIAL FOR ATTEMPTED MURDER

Crown Presents Sufficient Evidence to Hold Prisoner For Higher Court
FOUND EMPTY SHELL

Con. McCoy Discovers Discharged Cartridge Where Shooting Occurred

Abraham Robinson was committed to jail for the next court of competent jurisdiction on a charge of attempted murder of Magistrate G. W. Chambers of Meaford, who presided at the preliminary hearing in the police court there. The taking of the evidence was completed at 3.30.

"It took that there were five officers evidence given by the various witnesses so that there is a threat of a nation would about the whole affair if we want to reaching this decision," said Magistrate Chambers at the conclusion of the trial.

The charge was read to the prisoner and he said he had nothing to say. He was led back to the cells and will be confined in jail until the next court day of the supreme court.

John Chambers, a neighbour of the Robinsons, was the first witness to appear this afternoon. He testified that he and his wife lived in 44 Erie and another 38.85.

Mr. Chambers who lives on an adjacent lot said that he had known the Robinsons since for some eight years. He said he had never seen Robinson there and had never seen friends since.

James Robinson, brother of Abraham, who lived here at 44 Erie, said he had never seen Robinson there and had never seen friends since.

"We had two rifles a .44 and another .38.55. When in the .38.55 rifle was in my hands," he said.

"I do not know," he said. "When did you see it last? I cannot tell you."

"You are not familiar with your brother's movements that morning?"

"I do not have any conversation with Abraham when you came back from the States," he said.

"The girl got found by Constable McCoy was shown to the witness," he said. "You ever that girl around your house?"

"I wouldn't certify to that," he said. "I do not know."

"The witness told of seeing around and around the door of the Robinsons and around a short while previous to Mr. Charles' arrival."

"You know if he had anything to do with the shooting?"

"I do not know," he said. "You know if he had anything to do with the shooting?"

IRELAND'S RECORD WILL STAND CLOSE SCRUTINY

The local Prohibition Publicity Committee issued a full page broad side against Mr. W. H. Ireland, attacking him for what they claim he has failed to do. The attack is divided into five hands all of which are chiefly easy to read.

QUESTIONS (1)—Has Ireland brought any business industry or Government works of any description here?

ANSWER—Mr. Ireland is not Industrial Commissioner for either Belleville or Trenton—the cities keep and pay a man to Ireland industries in their own communities. But in Belleville we have the School for the Deaf—a splendid institution maintained by the Ontario Government and in Trenton they have the Ontario Government Moving Picture Plant. Not so bad for Ireland.

QUESTIONS (2)—The Government has just announced that they will build 600 miles of new highway! Did Ireland get any of that for this district?

ANSWER—We do not know yet where the 500 miles are to be nor do the Prohibitionists. No section of the Province has better highways than Belleville right now. From Belleville to Toronto, to Kingston, to Pictou, to Fuxboro in all directions we have splendid Government built and maintained highways.

QUESTIONS (3)—In the same question (2) and the same answer applies. Early in 1927 will be the completion of the Toronto to Montreal Highway passing through Belleville. The work can be done during the winter.

QUESTIONS (4)—Are we getting our share of the tourist traffic?

ANSWER—More than any other Canadian City of our size, due to our location, our scenery, our good roads and our fine hotels.

QUESTIONS (5)—If you really must have booze then you will have to vote for Ireland.

ANSWER—Mr. Ireland is not a booze nor does he sell it. It is easier to get booze under the O.T.A. than under the Temperance Act. A strong man can tell you whether it is poison or not.

QUESTIONS (6)—It surely is time for a change.

ANSWER—A strong man can tell you whether it is poison or not. A strong man can tell you whether it is poison or not.

Build up Greater Hastings with expanding industries, happy homes, happy workmen, putting their surplus savings in the bank instead of into booze.

Shall the gramophone be driven out of the home and the bottle reign instead? — His Master's Voice, or His Master's Vice?

What has Ireland Done For Belleville?

- 1—Has Ireland brought any business, industry or government works of any description here? No.
- 2—Harry Ackerman is the type of man West Hastings needs in the Legislature. You will make no mistake by voting for him.
- 3—Harry Ackerman's election means greater prosperity for Belleville, West Hastings and the Province of Ontario! Protect your Industries, your Homes and your Boys by voting Ackerman.
- 4—Booze will not build a Better Belleville. A Liquor Store on Front Street will defeat the merchants and impoverish the Citizens of Belleville and all West Hastings and will ruin many homes and many promising Boys.
- 5—Boost Belleville, West Hastings and your Province by supporting the men who stand by the Principle of Prohibition and give the O.T.A. a chance.
- 6—It surely is time for a change. Let's clean house and have the best brains of the country to represent us. Let's have an able man and then watch Belleville and district grow.

TIME FOR A CHANGE
Watch West Hastings Develop

LET'S HAVE A BUSINESS REPRESENTATIVE for a CHANGE
BOOST WEST HASTINGS

VOTE FOR ACKERMAN

Shall Ontario go to the Old Harry -- No! Vote for the New Harry -- Vote Ackerman.

Ex-Mayor Mikel's dream of a great city merging Belleville and Trenton may come true if a keen business man like Harry Ackerman is elected to represent West Hastings in the Ontario Legislature.

GAME OF BATTERIES.

"Thinking of putting up your car for the winter? If you are, then here is a few which can take care of your battery for you until the Spring. Belleville Vulcanizing has the facilities for properly caring for that battery all year throughout the winter. This firm will cut for your battery, and for the winter, examine it for defects, charge it for you and deliver it to the Spring—all for the price of \$1. It has that service for you we don't want to let Belleville Vulcanizing have all your battery troubles for the winter. They're at 411 Moore Street West, and the phone number is 411W.

INTERESTING CONTEST

Have you taken your guess yet as to which is the real pearl in the window of Jeweller's Jewelry Store? A contest which has occasioned more comment than anything of a similar nature held in Belleville for a long time, is this pearl contest. Three valuable prizes, a \$50 string of diamonds, a \$25 string, and a \$12 string, are being given away absolutely free to take contest which closes this Saturday. The affair is arranged by the local dealer, Jeweller, Jeweler, who is conducting with the assistance, to introduce to the people of Belleville, the famous Diamond Pearl, in the window of Jeweller's store. As of this week, is a case containing one hundred pearls, most of which are Bluebird imitation pearls, and the remaining pearl a genuine one. The problem is to discover the real, the best, and everyone is entitled to one guess. There is no charge to see the offer; you can see it and say anything all you have to do is to set me every ball in the store and make your selection. Preferably, give a reason to vote for your selection. I now make one guess the correct pearl. Winners of the contest will be announced in next Monday's Intelligence.

GETS PROMOTION

Mr. Harry Lee, a former well-known Belleville boy, and recently assistant manager of the Bank of Montreal, Calgary, has been appointed to the main branch of Quebec City as assistant manager. A number of relatives and friends were at the station yesterday noon to see him pass through his old home town, and to congratulate him on his promotion. He is the elder son of the late Mr. W. L. Lee and of Mrs. Lee, Montreal.

ST. ANDREW'S DAY

In observance of St. Andrew's Day, Holy Communion was celebrated in the Church of England this morning. St. Andrew, by virtue of having been the first missionary, is the patron saint of the Victoria Auxiliary who always attend Communion in a body on November 30th.

Social & Personal

Mrs. Jennie Alford has returned from Toronto after attending a Social-Maternal wedding.

Mrs. M. Johnson, 141 Francis St. is confined to her bed through illness.

Mrs. T. Henderson and daughter Ada have returned from Montreal where they have been guests of Mrs. Henderson's son, Kenneth.

CALVERT-DOUGLAS

At St. Andrew's Mass, on Saturday afternoon, a quiet wedding was celebrated when John Burton Calvert, of Thornburg, and Violet Douglas, of Fuller, were united in matrimony. Rev. R. G. Stewart, officiating.

HARRY-GARRISON

This afternoon, Rev. R. G. Stewart officiating, the wedding was quietly solemnized in St. Andrew's Mass of John Carl Harry, of Belleville, and Mary Alma Garrison, of Thurston.

CAPITOL THEATRE
Another of those well-lighted houses which the Capitol is drawing regularly these days was this popular playhouse again last night to give the first presentation of an interesting and fast moving society drama entitled, "The Houseman's Express".

William Lewis, Helena Castillo, and a strong cast contribute to the success of this good film which relates a tale of a society woman who is attracted to a man who is a social outcast.

BOSTON CLUB ASKS FOR TWO OFFICIALS IN HOCKEY GAMES

Boston, Mass., November 29.—The emphatic need of two referees in the Boston game of the National Hockey League has impressed itself upon many followers of the sport and finally the club officials have come to the stage where they are now demanding that two referees be used. Charles W. Adams, owner of the Bruins, who today sent a urgent letter to President Frank Calder

inuring upon the organizing of two referees to the Boston games in the future stated last night that "some thing will have to be done, and done soon."

"Many things have happened since from the range of vision of the single referee in Boston games," declared President Adams, "and those who have followed the sport had finally the club officials have come to the stage where they are now demanding that two referees be used. "TRIS" SPEAKER RETIRES AS PILOT OF CLEV. INDIANS

Cleveland, November 29.—Tris Speaker, leader of the Cleveland Indians since mid-summer 1919, resigned as manager today.

Speaker said forth he had absolutely no differences with the ball club nor with anything else, that conditions are amiable as they ever have been, but he said, "on his mind that if he was to get anywhere in the business would he would have to take the definite step he has decided upon sooner or later."

Speaker has several business engagements under consideration.

This is the fifth American League manager to retire in Boston games," declared President Adams, "and those who have followed the sport had finally the club officials have come to the stage where they are now demanding that two referees be used. TENNIS IS PAYING

New York, Nov. 29.—Professional tennis is an unqualified success, both as a spectacle and as a commercial proposition, according to C. C. Pyle, promoter of Suzanne Lenglen's tour.

The venture will net Pyle \$200,000 each profit after the gate receipts during the remainder of the trip which ends about the middle of January, making the average set at \$200,000.

Pyle also announced he would hold an open tournament either in New York or Los Angeles in February in which professionals from six foreign countries, as well as the members of the Langlen troupe will compete for cash prizes. In addition to Suzanne the tour includes Mary K. Browne, Vincent Richards, Har-

vey Shoupman, Howard Kinney and Paul Foret, Miss Langlen hopes to meet Helen Wills in this tournament Pyle asserted.

After the tournament Pyle will start to organize professional tennis clubs in the leading cities of the country, to be managed by these six players.

There will be a club in New York headed by Richards, and known as the Vincent Richards Tennis Club. The clubs in other cities will be patterned after the metropolitan organization and named after their managers.

LETTERS TO EDITOR

Belleville, Nov. 29, 1928.

To The Editor of the Intelligence:

Dear Sir:

This promised letter is mostly a repetition of previous letters I have written on Old Age Pension and Prohibition and I will say that in my opinion we cannot have a sober laity and progressive province without adopting a system of old age pension, prohibition and a little more equal distribution of wealth.

(12)—Mr. Ferguson, the premier, is not in favor of provincial welfare for Ontario where the Committee on Old Age Pension at Ottawa wrote to Mr. Ferguson requesting him to be a part of the Union with the other provinces.

He refused to make a definite reply and as old age pension is to become a federal statute at the next session at Ottawa would indicate that if Mr. Ferguson is returned it is fewer this province will be minus an old age pension statute.

(13)—It also appears to me that as old age pension appropriation is made up from returned tax deposits and is no cost to the people and despite the justice of the people without means, he ought to be admitted to them. It is a humane thing that he is a brave representative of the people and will become a part of the real policy in giving the labor interest a market to sell their life to the people to an amount equal to what is sold in Canada as supposed to be about \$20,000,000.

Indubitably he is a true representative of the people and despite the fact that he is a humane thing that he is a brave representative of the people and will become a part of the real policy in giving the labor interest a market to sell their life to the people to an amount equal to what is sold in Canada as supposed to be about \$20,000,000.

(14)—It appears that he will become a part of the real policy in giving the labor interest a market to sell their life to the people to an amount equal to what is sold in Canada as supposed to be about \$20,000,000.

very Shoupman, Howard Kinney and Paul Foret, Miss Langlen hopes to meet Helen Wills in this tournament Pyle asserted.

After the tournament Pyle will start to organize professional tennis clubs in the leading cities of the country, to be managed by these six players.

There will be a club in New York headed by Richards, and known as the Vincent Richards Tennis Club. The clubs in other cities will be patterned after the metropolitan organization and named after their managers.

Paris notes that the bathing cap technique is cropping up again, and in a very exclusive millinery studios, and in a close-fitting shape, which moulds the forehead and then forms a point at the top of the crown, is generally brought down, at one side 'under a veiled ornament, and the effect is very much like that of a Suzanne Anglen bandeau, and very beautiful materials—always supple—are used for such toques.

...ing he would come; and when she saw him at the gate she ran out to meet him, her eyes and face sparkling with joy as she suffered him to retain her hand while she said: "I am so glad to see you, Mr. Remington. I almost thought you had forgotten me at Riverside, Leslie and all."

Gray began to exclaim against any-
thing forgetting her, and also to express
a pleasure in finding her so glad to
be home. Maddy interrupted him
with "Oh, it's not that; I've something
to say—something which will
make you very happy. I feel a letter
from Lucy last night. When she is
twenty-five she will be her own mistress,
you know, and she means to be married
quite of her mother—she says—let me
—and drawing from her bosom, she
shows letters. Maddy read; "I don't in-
tend to fail in filial obedience, but I have
loved dear Givvy's patience long enough,
and as soon as I can I shall marry him."
"Isn't it nice?" and returning the letter
to its hiding place, Maddy scooped up
her hand and ate a quantity of the
cake beside the path.

"Yes, it was very nice," Guy admitted, but there was a shadow on his brow as he followed Maddy into the cottage, and he was not at all reassured by the way she came from the window, shook his head doubtfully and said, "Too young for you, young man. You don't like our Sunshine if you want to."

"Hush, Uncle Joseph," Maddy whispered softly, taking his arm and leading it around her neck. "Mr. Remington doesn't want me. He is engaged to another girl."

"Lor, as Maddy's words were, Guy said them, as well as the crazy man's words," Engagements have been broken."

"That was the first time the possibility of a new love ever entered my mind," Guy said, and he was not sure that his engagement might be broken, provided he himself, which he did not, were to die himself passively. Guy loved Maddy, he loved Lor, and that was why he was not sure. He was not sure, arising from the fact that he was calculating how long it would be before Guy was twenty-five, he began to talk with Maddy, asking her what she spent her money on, and how she spent it. He asked of the doctor, who, he said, had

"He was coming this morning," Guy rejoined, "but I persuaded him to defer his call until you were at Aikenside. I have come to take you back with me, and we are to have a party day after tomorrow evening, and I wish you to be
